## REPUBLICANS WILL CONFER.

To Meet at Santa Barbara to Discuss Campaign.

Rudolph Spreckels's Coterie to Go to Stockton.

Johnson Registrations Still Show a Falling Off.

(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO BUREAU OF THE TIMES, Jan. 22.—[Exclusive Dispatch.] Two conferences of Republicans are to be held February 7, one at Santa Barbara, and the other at Stockton. The first named is the conference of the Republican State Central Committee, the call for which will be issued tomorrow and at which time the Republicans of the State are to gather to discuss campaign matters.

The other conference is called by the "Republican Progressive League of California," of which Rudolph Spreckels is sponsor.

The Spreckels call is signed by fifty-five men and women, but among the names those of former Assemblyman A. H. Hewitt, A. M. Drew and Senator E. O. Larkin, who issued a call for a Progressive-Republican conference here in December, do not appear. A number of the signers for the call of meeting are employees of Spreckels or are interested with him in business.

HAYES'S EXPLANATION.  
There is no question of any fight between the Spreckels organization and that headed by Gustave Brenner, said J. O. Hayes this afternoon in discussing the call for the Progressive-Republican conference at Stockton.

The Brenner committee, as the official organization recognized by the National Committee, is a temporary organization devoted to bringing the different elements of the Republican party together before the primary elections.

"After the primaries this committee will be out of existence, as the voters by their ballots will have named the members of the new State Central Committee. The work of the Brenner committee is merely preparatory work for the regular party. Hayes is not a member of the State Central Committee, but was chairman of a committee of fifteen chosen at the December conference here to report on reorganization of the Republican party."

REGISTRATION FIGURES IN THIS CITY.  
Registration figures in this city will tend to show that despite the strenuous work of the Johnson organization to bring out a large registration of Progressive voters, the regular Republicans are the dominant party. At the close of registration yesterday out of a total of 7669 voters registered the party figures were: Republican, 3681; Progressive, 2088; Democrat, 1788.

FINAL FIGURES.  
Other registrations: Oakland—Republican, 6887; Progressive, 6844; Democrat, 1908; Sacramento—Republican, 1384; Democrat, 941; Progressive, 1701; Bakersfield—Democrat, 458; Republican, 261; Progressive, 101; San Jose—Republican, 1517; Progressive, 114; Democrat, 492; Stockton—Republican, 1169; Democrat, 900; Progressive, 240; Fresno—Republican, 108; Democrat, 658; Progressive, 319.

DEMOCRATS INDICTED.  
THE EMPLOYEES' SCANDAL.  
(BY A. P. MONT WIRE TO THE TIMES.)  
CORTLAND (N. Y.) Jan. 22.—William H. Kelly of Syracuse, Democratic State Committee man, and Fay C. Parsons, of the Democratic State Committee, and Fay C. Parsons, of the Democratic State Committee, were jointly indicted today charged with violating the civil service law in collecting political contributions from civil service employees.

This is the season when sickness stalks through the land in the form of pneumonia. The surest defense against the disease is Chamberlain's Cough Remedy.—[Advertisement.]

## "OVERTOPS THEM ALL."

The Unrivalled Pulling Power of "The Times" Circulation Again Demonstrated.

Another record has been written, and The Times still holds its proud place at the head of the world's newspapers.

The Times not only led all the newspapers on the planet in the volume of advertising printed in 1913, but it distanced its nearest contemporary by approximately 3,000,000 lines.

Discriminating buyers of advertising space have found by experience that the Los Angeles and Southern California by using The Times alone, and the enormous volume of advertising regularly printed by this paper emphasizes forcibly and conclusively that as a publicity medium it is without a real competitor in the Pacific Southwest.

The story of The Times' leadership is eloquently told by the following tabulation containing the figures of the newspaper making the best record in the respective cities. This table was carefully compiled by the Mail Order Journal of Chicago.

## BATTLE CRY OF REPUBLICANS ADOPTED AT RIVERSIDE.

(BY DIRECT WIRE TO THE TIMES.)

RIVERSIDE (Cal.) Jan. 22.—[Exclusive Dispatch.] The Republican battle cry unanimously adopted by the Republican Federation of Southern California at Riverside today follows:

Devoted to the principles of true Republicans, as exemplified by the immortal Abraham Lincoln, and portrayed more recently by the unfinching and unselfish patriotism of William McKinley and William Howard Taft, this Republican Federation of Southern California raises its battle flag and invites all believers in sound government to rally around it and hereby pledges its officers and members to do all in their power to uphold the Constitution and re-establish prosperity and confidence. It shall be the object of this organization to advocate constructive statesmanship in the State and nation and to promote harmony in the ranks of Republican party and to maintain a consistent and vigorous opposition to political methods and political policies that tend to engender class hatred throughout the country and to advocate such measures and such party policies as to demonstrate to all thinking people that the principles of true Republicans are based on the indestructible and eternal foundation of truth, humanity and the constitutional rights of individuals and unflinching opposition to political hypocrisy, demagoguery and self-constituted bosses masquerading as political purists.

### Loyal Republicans.

(Continued From First Page.)

tions of the State, that there may be presented in said Southern California district a united, harmonious support to the full State, county and Congressional candidates of the Republican party at the general election, to be held in November, 1914; that the enduring policies and principles of the Republican party that have maintained the stability and guaranteed the uniform prosperity of the State and nation may be again resumed and perpetuated. We, the members of the Republican Federation of Southern California, composed of representatives of the true and patriotic members of the Republican party of the nine counties composing said Southern California district, in meeting assembled, do hereby ratify the action of the Republican National Committee, at its recent meeting, and fully endorse its recommendations and its platform, and we pledge ourselves and our influence in the full compliance with the same, and to the patriotic and unselfish action of our National Committee, Hon. Phil A. Stanton, in attending and participating in the wise action of said national committee. Be it.

"Resolved, by the Republican Federation of Southern California, that we endorse and pledge our enthusiastic support to the call of the Hon. A. C. Brenner, chairman of the Republican State Central Committee, for a general conference of Republicans to be held at Santa Barbara, February 7, 1914; and be it further resolved, that the members of this committee of this federation attend this conference to the end that the State Central Committee be given all possible aid in the organization of the Republicans of the State. Be it.

"Resolved, that the chairman of the Executive Committee shall immediately establish a general headquarters for the federation in the city of Los Angeles, and county headquarters in the various counties at the earliest possible date, and that he is hereby empowered and authorized to receive a battery of artillery from the insurgent forces of Sinaloa, Gray, formerly of the English army, will be in charge of all the artillery. A Federal column of about 2000 men was in the State of Chihuahua, said official reports this morning. The Federals attempted a sortie into the Constitutional forces investing Guzman, the gulf port of Sonora. It was stated that, while the Constitutionalists lost only a few men, the Federals retreated with three wagonloads of dead and wounded.

It is believed that Carranza's health will not permit him to make the journey over the mountains east of this town, and into Chihuahua by way of Durango, and that his route will be by way of Hermosillo, since Tepic was in the hands of the insurgents.

The expedition of Gen. Lucio Blanco, which is destined for a campaign in the State of which Guadalupe is the metropolis and capital, will proceed south within a few days. While here Blanco is recruiting men for his column. Probably he will receive a battery of artillery from the insurgent forces of Sinaloa, Gray, formerly of the English army, will be in charge of all the artillery. A Federal column of about 2000 men was in the State of Chihuahua, said official reports this morning. The Federals attempted a sortie into the Constitutional forces investing Guzman, the gulf port of Sonora. It was stated that, while the Constitutionalists lost only a few men, the Federals retreated with three wagonloads of dead and wounded.

ARMY BANS SLIT SKIRTS.  
Field Marshal at Budapest, Hungary, Issues Order to Officers of Garrison.

(BY DIRECT WIRE TO THE TIMES.)  
BUDAPEST, Jan. 22.—[Exclusive Dispatch.] Field Marshal Fekete, commander of the garrison here, has issued the following order: "Whereas, certain young women have carried their devotion to the prevailing mode to such a pitch as to appear in slit skirts and thus overstepped the furthest limits of propriety as laid down in the officers' corps, all military units are commanded to inform the women of their families and women who are invited to military functions that slit skirts are not permitted."

CONCEDE DEATH OF MINERS.  
Search for the Two Austrians, Imprisoned by Fire in the Utah Company's Property Is Unsuccessful.

(BY A. P. MONT WIRE TO THE TIMES.)  
BINGHAM (Utah) Jan. 22.—[Search for the two Austrians who were imprisoned yesterday by a fire in the Boston mine of the Utah Copper Company was discontinued at a late hour today, without the slightest prospect of success. It was conceded by company officials that the two men had succumbed to the poisonous gases emitted by the burning timbers of the mine.

Although water was being pumped into the mine tonight no other success will be made in recovering the bodies until the bodies are recovered. The flames are confined to a limited area and it is expected they can be controlled in a short time. The helmet crew will re-enter the mine early tomorrow and continue the search for the two men. Three Austrians lost their lives yesterday in an attempt to reach them.

### REPUBLICANS PRESENT.

Among the prominent Republicans from the nine counties represented at the Republican Federation of Southern California, who were present at the meeting, were: R. H. Benton, Imperial county; David Perkins, Santa Barbara; J. V. Miller, H. H. Owens, Kern; J. W. Morrison, W. M. Brown, Orange; C. W. Hornick, San Diego; Col. Rev. Richardson, H. L. Marshall, Corvina; J. L. Matthews, Covina; F. C. Yater, Redlands; H. P. Kyes, R. C. Harrison, San Bernardino; J. Ross Clark, Chula Vista; J. R. Gabbert, M. J. Donohoe, Capt. C. T. Rice, W. A. Furrin, E. K. Marion, W. G. Fraser, I. B. Patten, K. A. Teley, Dr. George R. Tucker, J. W. Brown, H. Robinson, F. S. Evans, P. Vandergriff, M. Griffin, Burt Younglove, Loman Evans, F. A. Miller, H. ## AN IDEAL GIFT

A good, warranted Standard Piano from the Platt Music Co., 330 So. Broadway, during our Removal Piano Sale. We must move. These pianos must be sold at low prices and terms will do it, as we have no place to store them.

Come early. Come today sure to Platt Music Co., 330 S. Broadway. This letter from our Landlord tells the story:

Pianos from  
\$55 and up.

On easy  
terms.

New  
\$550  
50-Note Player  
Sole Price  
\$950  
\$10 Down  
\$5 Per Week

330 S. Broadway

HARRY GRAY  
412-414-416 Central Bldg., Los Angeles, Cal.  
December 23, 1913.  
Gentlemen:  
The case of the premises which you now occupy, being No. 310 South Broadway, will expire on January 1st, 1914. This letter is therefore to advise you that it is my arrangement and expectation to begin tearing down the building occupying said ground on the 1st of February, 1914, for the purpose of erecting a new building thereon. Your premises will therefore be required to be vacated not later than the 31st of January, 1914, and you will please take notice that possession will be expected and required promptly on that date. You will therefore govern yourself accordingly.  
Yours truly,  
HARRY GRAY.

Player Pianos  
\$265 and up.

On easy  
terms.

\$300  
Wetzel  
Oak Case  
Sole Price  
\$185  
\$10 Down  
\$1.50 Per Week

330 S. Broadway

## Specials Offered at 330 South Broadway

This mammoth Removal Sale has been forced on us, for this building is to be torn down and we have short notice, for we must, we have to, vacate, Jan. 31, 1914, at the very latest and the next ten days will witness the most desperate quick-fire piano-selling efforts we have ever put forth. Walk six feet inside our store and convince yourself that it won't pay you to wait one minute longer. A piano for every taste and for every pocketbook.

## The Platt Music Co.

330 South Broadway  
Open Evenings

R.R. fare reimbursed to purchasers and freight prepaid within a radius of 200 miles of Los Angeles. Free stool, tuning, Player music.

A few specials for Friday and Saturday offered for sale, only at Platt's, 330 S. Broadway. Open evenings. The above instruments, some new, some used, all fully warranted 5 to 25 years.

## WIND SHIFTS, RAIN IS OVER.

Backbone of the Storm on  
the Seaboard Broken.

Observer Forecasts Better  
Weather for Today.

Heavy Snow in Mountains  
Causes Rise in Rivers.

[BY A. P. NIGHT WIRE TO THE TIMES]  
SAN FRANCISCO, Jan. 23.—With the barometer rising all along the Coast of California, the back of the storm which has swept the State's seaboard and seriously inconvenienced shipping, appears to have been broken. The wind, according to reports tonight, is steadily diminishing in velocity.

Better weather is forecasted by the observers for tomorrow. While the skies will not be wholly clear, there will be little, if any rain, he said.

Word reached this city that the streets of Napa are under from two to three feet of water following 3.54 inches of rain last night. Neither river boats nor trains have been able to reach Napa today.

Forecasters said early in the day that the storm was moving south with prospects that it would get across the Mojave Desert and might cause precipitation on the hills and mountains of Southern California.

There was a heavy downpour last night in the Sacramento Valley and San Francisco Bay regions, doing some damage. The rainfall for the twenty-four hours before 1 a.m., today was more than an inch over the whole territory, reaching its highest on Mt. Tamalpais, where 2.62 inches

fell, accompanied by a southwest gale. In San Francisco the rainfall was 1.67 inch; in Sacramento, 1.12; Red Bluff, 1.24.

The San Joaquin Valley is receiving a valuable wetting today as far south as Bakersfield. The rainfall for the twenty-four hours preceding 1 o'clock this morning was as follows: Exeter, .45; Visalia, .48; Tulare, .29; Hanford, .15; Dinuba, .46; Porterville, .39.

The Santa Cruz Mountains came in for the brunt of the storm on the Coast. Boulder Creek got 3.19 inches, which makes a reasonable total of 45.62 inches against 15.44 this time last year.

In Santa Cruz the rainfall was 1.71 inches. San Jose had .48, Watsonville, 1.91; Salinas, .54, and San Luis Obispo, the farthest point south on the Coast that has been reached by the present storm, .31.

The rainstorm here was responsible for two fatal accidents. O. M. Gregory, shielding himself from the downpour with an umbrella, was struck by an automobile and died shortly afterwards at a hospital of a fractured skull.

Mrs. Francis Ayres was the victim of a similar accident. She was struck by a street car and her skull was fractured. There is little hope of saving her life.

Literary Proviso May Cause Considerable Debate.

The South Expected to Vote as a Unit for It.

WASHINGTON BUREAU OF THE TIMES, Jan. 22.—[Exclusive Dispatch.] Congress will pass and the President will sign a bill shutting out from this country aliens who cannot read. Democrats who are in favor of passing quickly an immigration bill like that which Taft vetoed last winter are pressing the House leaders to give the measure the right of way as soon as the postoffice appropriation bill has been passed.

The prospect today is that the advocates of the bill will have their way, and that it will go through the House of Representatives not later than the second week in February. Arrangement is being made for the consideration of the measure in the Senate.

There are three minority reports—one signed by Representative Sabath of Illinois and Goldfinger of New York; one by Representative Moore of Pennsylvania; and one by Representative Johnson of Washington. The objections to the bill entered by the minority members are based on various considerations.

There are some curious things underlying this proposed immigration restricting measure. There is a feeling in Washington that the House of Representatives in Congress with the bill to pass and yet feel that they must vote against it. It is said that in its initiative it is a southern proposition. Members of the House from the Southern States are not ready to vote against it.

This bill, or one very much like it, will be remembered, was passed by the Senate in 1906, and vetoed by President Taft. The Senate passed it over the veto by more than a two-thirds vote, but the House upheld Taft's action by a narrow margin.

This year the Democrats have no fear of repeating the bill passed by the Senate. It is believed to be in sympathy with its provisions. It is backed by most of the labor unions of the United States and it has a large support also from members of different societies usually described by the adjective "patriotic."

On Sakura, nine villages, composed of 140 houses, were destroyed out of eighteen villages on the island. The number of deaths among the population was not so considerable as at first believed, and probably will prove unexpectedly small.

In Kagoshima, the deaths were eighteen; the severely injured, eight; and the slightly hurt, seventy-one. Thirty-five houses collapsed, 118 were partly destroyed, and many others slightly damaged. The principal public buildings were not injured.

One of the chief charges against the aged real estate broker who pleaded guilty to a charge of forgery, in Judge Craig's court yesterday, and a sentence of three years in San Quentin was given the defendant.

The court stated that he had received many letters asking that leniency be shown Davidson, but that the facts in the case did not warrant such leniency.

Judge Craig declared that a man who would deliberately defraud poor men and women out of their savings by dubious methods while posing as a reputable citizen deserved punishment.

**A Tonic For Dyspeptics**

When food lies undigested in the stomach, fermentation and gas forms. This gas distends the stomach and presses on the heart, causing a pain that sometimes arouses fear of heart trouble. The condition in which gas forms is caused by a low tone of the digestive organs and a lack of rich red blood resulting in deficient nerve force. It is a condition that calls for a tonic.

Dr. Williams' Pink Pills, a tonic for the blood and nerves, have been used with great success in the treatment of this form of stomach trouble. Cold baths in the morning followed by brisk friction with a rough towel will help as they stimulate the circulation by a tonic treatment with Dr. Williams' Pink Pills, building up the blood, restoring the nerve force and making the stomach ache to do its work gives the most lasting benefit.

You are trying no experiment when you take Dr. Williams' Pink Pills. They cannot harm the most delicate system. You can get Dr. Williams' Pink Pills at the nearest drug store. A copy of the diet book "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Company, Schenectady, N. Y.

**Japanese Policy.**

(Continued from First Page.)

framed from making public the details of the exchanges, his statement was informative in many quarters, and particularly in Congress. President Wilson was fully aware of the fact that a statement was to be made. When negotiations are still in complete, the rules of diplomacy require the assent of both governments to the publication of any details, so that one side may not take advantage of the other to form public opinion.

By a coincidence the House Committee on Immigration was considering today a bill introduced by the State Department regarding Japanese immigration, when attention was called to the development in Tokyo, and although the committee had not yet considered such subjects behind closed doors at this stage.

In administration circles there was a feeling of optimism regarding the relations between the United States and Japan, and the highest officials did not hesitate to express the opinion that a satisfactory agreement soon would be reached. There was no information as to the probable basis of such an agreement, but the attention was called to the fact, however, that the negotiations had been suspended last August because of a radical difference of opinion between the two governments as to the meaning of the existing treaty, one of the officials who would be directly concerned in the negotiations suggested that the proper way to meet such a condition would be to frame a new treaty, which would so precisely define the relations between the two countries that there would be no further difference of construction.

It has been understood that in the course of the exchanges this idea of an adjustment by the means of a new treaty was mentioned, though today it was not definitely stated whether any formal request for such a convention had been made. It is believed the way is still open for the resumption of the negotiations, and it was suggested that probably it was what Baron Makino had in mind when he referred to "other ways" of dealing with this issue.

**IN THE HOUSE.**

The subject before the House committee today was a discussion of the treaties and points of international law bearing on the proposed Japanese pending Baker immigration bill. A bill prepared by John Bassett Moore, counselor of the department, set forth the law in general, and the committee probably would contravene existing treaties, particularly in so far as it would violate the most favored nation clause, which is one of the basic principles of the State Department holds that any legislation of the nature of the Baker bill should be considered as a violation of the treaties and the treaties are not abrogated.

After an executive conference the House committee today declined to open hearings on the Baker bill. Chairman Burnett declared the committee found itself not yet ready to proceed with the bill, and other members said they wished to hear from Secretary Bryan before taking up the measure.

For an hour and a half the committee debated, with Representative Raker urging immediate opening of the hearings. Further consideration finally was postponed until January 23.

Secretary Bryan said: "We are hopeful of a satisfactory solution of the problem, but to indicate the basis of his hope, Mr. Bryan declined to say whether or not an answer would be delivered to the last Japanese note, offered by Viscount Chinda last August."

President Wilson, referring today to the address of the Japanese Foreign Minister, let it be known that so far as the Washington government was concerned there was no interruption in the friendly relations between Japan and the United States. No pressure, it was stated, had been exerted for an answer to the last Japanese note, nor had there been any indication of the doubt that would be the next step in the situation, but indicated it would be along lines that would manifest continued friendship toward Japan. Whether a new treaty would be negotiated, it appeared, depended first of all on the question of the desirability of whether California had violated the present treaty.

**ETHIOPIAN ASTRONOMERS.**

Prof. Garstang Announces Discovery of an Observatory for the Determination of Latitude.  
[BY DIRECT WIRE TO THE TIMES.] LONDON, Jan. 22.—[Exclusive Dispatch.] A dispatch from Khartoum to the Times says a recent discovery by Prof. Garstang at Merca, the site of the ancient Ethiopian capital, include a sacred well and an observatory, in which was evidence of instruments for taking observations, especially in determining latitude. He also discovered two monumental inscriptions with the longest Merca texts extant and which record victories with reference to Rome.

## SULZER STORY TO GRAND JURY.

Murphy and O'Gorman Also Will Be Summoned.

Whitman Hints at Prosecution of Tammany Chief.

Ex-Governor Tells of Offer to Stop Impeachment.

NEW YORK, Jan. 22.—A grand jury investigation was begun today under the story told under oath yesterday by William Sulzer that Charles F. Murphy sent a messenger to him in the trial of the impeachment charges against him as Governor and offered to call off the trial if Sulzer would quit his graft investigation into State departments.

Sulzer repeated today before the grand jury the story of his alleged dealings with the Tammany chief, and it was made known by Dist. Atty. Whitman that this part of it and that relating to the alleged attempt of James E. Gaffney, Murphy's business and political associate, to exact a political contribution of \$100,000 from James C. Stewart, a State highway contractor, would be made the subject of a twofold inquiry.

Mr. Whitman said Murphy would be called as a witness in the John Doe inquiry. Murphy denounced Sulzer's story as false and said that he was willing to testify and would waive immunity.

The District Attorney also said that United States Senator O'Gorman, who, Sulzer testified, told him that Gaffney was Murphy's chief "bagman" and had "held Stewart up," would be called. Senator O'Gorman notified Mr. Whitman that he would be willing to appear.

Sulzer testified yesterday that while the trial of his impeachment was in progress Murphy had sent word "that if I'd quit he'd quit, and that Senators Fawley, Wagner, Ramsefer and Sawyer would quit." The messenger, he said, was John H. Dolan.

Sulzer is understood to have explained today before the grand jury that this alleged bargain meant that the four Senators would vote against his impeachment and that these four negative votes would have been enough to prevent the trial required for a verdict against him.

The deposed Governor was before the jury for nearly two hours, and will be called again. In the meantime he will send for documentary evidence in the possession of his former secretary, Chester C. Platt, with which he promised to corroborate some of his statements.

It was learned that the District Attorney plans to obtain testimony from certain other witnesses before calling either Murphy or Senator O'Gorman. Having sworn yesterday that United States Senator O'Gorman described James E. Gaffney as "Murphy's chief bagman," who tried to "hold up my

friend Stewart for \$100,000," the ex-Governor today was invited to go over these charges in more detail before the jury.

The Stewart mentioned is James Stewart, a State highway contractor. Gaffney is a prominent politician, contractor and business associate of the leader of Tammany Hall.

Senator O'Gorman declined to discuss the testimony because he might be called as a witness himself.

WHITMAN DETERMINED.

The evidence given by Sulzer speaks for itself," said Dist. Atty. Whitman today. "It was given under oath and should be judged accordingly. I will not comment on it, but the public may rest assured that if a crime has been committed in this country I will do my duty, no matter who the offenders may be."

MURPHY'S DENIAL.

Murphy, usually non-communicative, referred briefly to Sulzer's testimony this afternoon. He denied most of Sulzer's charges, and added: "I never talked alone with the man in my life—anyway, not since he was nominated for Governor, because I knew that he would do just what he has done—perjure himself."

Dist. Atty. Whitman was greatly interested in the Murphy statement. "I shall be only too glad," he said, "to give Mr. Murphy an opportunity to testify should he care to do so."

"I am ready and willing to testify and waive immunity, of course," the Tammany chief had said earlier in the day.

DENMARK METHODISTS' LOSS.

Church Founded by Organization of America in Copenhagen Destroyed by Fire.

NEW YORK, Jan. 22.—News of the destruction by fire of the social settlement church founded by the Methodist Episcopal church in Copenhagen, reached the Methodist board of foreign missions here today in a dispatch from the Danish capital. The church, with the parsonage and other attached buildings, was valued at \$100,000.

This group of buildings, known as Jerusalem Church, was established by the American foreign missions in 1856 through a gift of the late Harold Dolmer, Danish Consul-General at New York. It was the only organization of its kind in Denmark, and its success was noted all over the continent. It maintained an employment bureau, a restaurant, a shelter for the homeless, two orphan homes, a kindergarten and a holiday colony for children from the slums of Copenhagen. Except for a small annual grant from the Methodist board, it was self-supporting.

SEGEL IS PENITENT.

"But I Used to Get Four Thousand Dollars a Month," he Testifies in New York.

NEW YORK, Jan. 22.—Henry Segel, head of a chain of drygoods enterprises, most of which failed recently, took the witness stand today before a special master in the receivership proceedings and testified that he was practically penniless.

"I used to draw \$4000 salary every month from my stores," he said. "Now I have no income, haven't a cent."

Segel told of the organization of the Segel Stores Corporation, which he and Fred E. Vogel, formed as a holding company to take over the Segel stores in Chicago, New York, and Boston.

## OVER A BILLION TO THE PACKERS.

Three Hundred Millions More Than in Previous Year.

Total Exceeds Revenues of Ten Railway Systems.

Apply Profits to Dividends on Capital Stock.

CHICAGO BUREAU OF THE TIMES, Jan. 22.—[Exclusive.] Dis-

patches make their turnover of the five leading Chicago packing companies in the last fiscal year aggregated about \$1,155,000,000, or approximately \$300,000,000 more than in the fiscal year of 1912. To this total the contribution of Swift & Co. was \$400,000,000; Armour & Co., \$350,000,000; Morris & Co., \$175,000,000; the Cudahy Company, \$110,000,000, and Sulzberger & Sons Company (estimated), \$125,000,000.

This enormous total is greater than the gross revenues of ten of the larger railroad systems of the country. The volume of capital required by the packers to make their turnover of \$1,155,000,000 was insignificant compared with that employed by the ten railroad companies to do about the same amount of business. The packers turn their capital over several times a year, which, of course, cannot be said of the railroads. It was estimated by John Fletcher, in the hearing on the reserve bank question, that the total turnover of concerns at the stock yards totaled \$15,000,000 a day, or more than \$4,000,000,000 a year.

Earnings of the packing companies in the last year were much improved over those of 1912.

THE NET AMOUNTS.

Their net amounts applicable to dividends and the percentage of return on their capital stock compare as follows:

1912 1913

Swift & Co. \$1,155,000,000 12.5% \$1,155,000,000 11.0%

Armour & Co. \$350,000,000 12.5% \$350,000,000 11.0%

Morris & Co. \$175,000,000 12.5% \$175,000,000 11.0%

Cudahy Co. \$110,000,000 12.5% \$110,000,000 11.0%

—After payment of 6 per cent. on \$2,000,000 preferred stock.

The turnover of the Sulzberger & Sons Co. has been estimated at \$125,000,000, with a net profit of \$12,500,000.

## CALIFORNIAN RE-ELECTED.

American National Live Stock Association Selects San Francisco as Place of Next Convention.

DENVER (Colo.) Jan. 22.—The American National Live Stock Association closed its seventeenth annual convention here today with the selection of San Francisco as the place for the 1915 meeting and the re-election of H. A. Jasso of Bakersfield, Cal., as president.

The other officers chosen follow: First vice-president—Dwight B. Heard, Phoenix, Ariz.

Second vice-presidents—J. B. Kendrick, Sheridan, Wyo.; C. M. O'Donnell, Bell Ranch, N. M.; M. K. Parsons, Salt Lake City; I. T. Prior, San Antonio, Tex.; C. B. Rhodes, Orchard, Colo.

Treasurer—John W. Springer, Denver.

Attorney—Sam H. Cowan, Ft. Worth, Tex.

Secretary—T. W. Tomlinson, Denver.

Federal control of the open range, more effective sanitary regulations, protection of American live-stock owners and ranchmen in Mexico and Texas, education of the children on farms and approval of the work of the Federal Department of Agriculture were the chief recommendations adopted.

PACKERS' REBATE INQUIRY.

Grand Jury in Chicago Investigates the Charge That Railroad Favored Swift & Co.

CHICAGO, Jan. 22.—A comprehensive investigation into the relations between railroads and shippers was begun here today by the Federal grand jury. The government will seek to determine if rebates have been given to certain shippers by certain roads in violation of the Elkins Act. More than a dozen witnesses appeared today and many more have been subpoenaed.

Investigation of charges that Swift & Co. packers, had effect received a rebate from the Ann Arbor Railroad Company occupied most of the day. Witnesses testified that the packers received carload rates on shipments of less than carload lots.

An official of the packing company said the rate was the result of inadvertent underbidding. "It was an error in classification," he said, "and was corrected as soon as it was discovered, about a year ago."

The relations of certain Chicago coal companies and the roads handling their shipments and the switching rates given milling concerns also are to be investigated.

UNCOMMON AFFLICTION.

New York State Treasurer Sprints His Wrist Signing Checks to a Total of \$25,000,000.

ALBANY (N. Y.) Jan. 22.—[Exclusive Dispatch.] "My wrist is sprained," said John J. Kennedy, State Treasurer, to some friends tonight, with whom he was dining at the Ten Eyck.

"Met with an accident?"

"No; just from signing checks. One was for \$19,000,000, payable to the Manhattan Bank of New York; another for \$1,000,000, and then others for little sums—a mere matter of \$10,000,000. Oh my poor wrist!"

Then the State Treasurer explained that the checks, totaling \$25,000,000, were to take up short-term notes issued by the State last year in anticipation of the bond sale of yesterday.

## ENDS YAMMED CAREER.

Bishop Walden of Cincinnati, of the Methodist Episcopal Church, Dies in Florida.

DAYTONA (Fla.) Jan. 22.—Bishop John M. Walden of Cincinnati, who for some days has been ill here, died last night. He was 53 years old and said to have been one of the oldest active bishops of the Methodist Episcopal Church.

Bishop Walden had made Episcopal visits to every State and to the Methodist missions of Europe, Asia, South Africa and Mexico.

ONCE NEWSPAPER MAN.

BY A. P. NIGHT WIRE TO THE TIMES.

CINCINNATI (O.) Jan. 22.—Bishop John Morgan Walden, D. D., L. L. D., after graduating from a local college, was a reporter and editor of papers in Illinois and Kansas, and was actively interested in politics. He was elected a member of the Topeka Free-State Legislature, and later was a member of the Leavenworth constitutional convention.

Bishop Walden, after leaving college, was a skeptic in religious subjects, but was converted to the Christian religion in Cincinnati after his political career ended.

When the Civil War began he was on trial as a pastor and was appointed chaplain of the First Kentucky Regiment. He was later commissioned lieutenant-colonel of the Fourth Cincinnati Regiment of Home Guards for his work in procuring recruits, and was in active service during the Kirby Smith and John Morgan raids.

Bishop Walden was a thirty-third degree Mason and a member of the Knights Templar.

WRECK REMOVED WRECKED.

ST. PAUL (Minn.) Jan. 22.—(By A. P. Night Wire.) Reports of a serious wreck near Pembina, N. D., given general circulation here today, were discredited in dispatches from Grand Forks, N. D., and Winnipeg, Man., which stated no such disaster had occurred.

Men Welcome Mother's Friend

A Duty that Every Man Owe to Those who Perpetrate the Race.

It is just as important that men should know of progressive methods in advance of motherhood. The suffering incident of a child-bearing can be easily avoided by having at hand a bottle of Mother's Friend.

This is a penetrating, external application that relieves all tension upon the muscles and enables them to expand without painful strain upon the ligaments. Thus there is avoided nervous spells; the tendency to nausea or morning sickness is counteracted, and a bright, happy disposition is preserved that reflects wonderfully upon the character and temperament of the little one soon to come.

You can obtain a bottle of "Mother's Friend" at any drug store at \$1.00. It preserves the mother's health, enables her to make a complete recovery, and thus with renewed strength she will eagerly devote herself to the care and attention which mean so much to the welfare of the child.

Write to the Bradford-Rogers Co., 229 Lamar Bldg., Atlanta, Ga., for their valuable and instructive book of guidance for expectant mothers.

## LOCAL NEWS IN BRIEF.

**G.A.R.-W.C.G. Open Meeting.**  
Huntlington Post G.A.R. and W.C.G. will have an open meeting tonight at No. 517 South Broadway.

**The Question of Annexation of Crescent Heights to Los Angeles** will be discussed tonight at 7:30 o'clock in the Laurel school at Crescent Junction. Miss Gregory and George H. Dunlop being the speakers.

**H. E. Huntlington** is expected to arrive either today or tomorrow from New York. At the office of Howard Huntlington the statement was made yesterday that nothing has been heard from either Mr. or Mrs. Huntlington since they were wired from New York last Sunday to expect them within five or six days.

**Credit Men's Meeting.**  
The Los Angeles Credit Men's Association will meet this evening at 8 o'clock at the Bristol cafe. The speakers will be W. L. McConnell, manager of the Los Angeles District State Compensation Insurance Fund, and Attorney Willis J. Morrison. They will speak on the Workmen's Compensation, Insurance and Safety Act.

**Benefit Theatricals.**  
Mrs. G. M. Purcell and a number of other friends of a victim of misfortune, who was formerly connected with the "Mission Play," will give a benefit for him at the Mission Playhouse, San Gabriel, on the evening of February 4. The performance will be the comedy "Confusion." A number of persons socially prominent will act as patrons. The tickets are to be placed on sale today.

**Tunnel Blockade Expensive.**  
General Superintendent Platt of the Southern Pacific stated yesterday on his return from the San Fernando tunnel that it will probably cost the road from \$20,000 to \$25,000 to make the contemplated repairs to the tunnel and that it will be out of service for about two weeks. According to Platt, about 250 feet of the tunnel will be faced with concrete, which will take from four to five days to set properly.

**Temple B'nai B'rith.**  
"Essentials and Non-essentials in Religion" will be the subject of Dr. Hecht's discourse at the temple this evening at 8 o'clock when the regular weekly Sabbath service will begin. The temple choir will render the musical service according to Prof. Davis's setting, and Mrs. Jerome Frank, prominent in New York society, will sing here, will sing "Dudley Buck's beautiful anthem, 'Fear not, Ye, O Israel,' and Franz Schubert's 'Peace be With All Souls Departed.' Tomorrow morning the regular service begins at 10:30, and will be preceded by the children's Sabbath service at 9:45. Dr. Hecht will speak on both occasions.

**Intercollegiate Debate.**  
Los Angeles High School clashes with South Pasadena tonight in the second series of debates in the Southern California Debating League. South Pasadena now leads the league with Los Angeles only one-third of a point behind. A good winning score by either school will practically decide the championship for the year. The question to be discussed is: "Resolved, that an impartial tribunal at the Hague should be given authority to settle all international disputes together with sufficient police power to enforce its decisions." Affirmative will be upheld by Los Angeles High, represented by Fred E. Field and Herschel Douglas. The South Pasadena debaters are Harrison Thompson and Edward Stuart. The debate will be held in the South Pasadena High School Auditorium.

**Congregation Sings.**  
The Sabbath eve service will begin at 8 o'clock this evening with the opening anthem of "How Beautiful are the Feet of Him Who Preaches the Gospel," and will be sung by the quartette of the temple, with the solo part by the cantor, Mr. Weinstein, who will intone the liturgical portions of the evening service. Rabbi Farber will speak on "The Dogma of Human Relationship," Norman B. Hassler, baritone, will be the soloist, and will sing "In the Shadow of the Almighty," a new composition. The music of the liturgy will be from Sulzer's synagogue music. The Sabbath morning services (Sabbath) begin at 9:30, with the full quartette in attendance, and the auxiliary choir composed of the children from the religious school of the congregation. Rabbi Farber will preach on "Depression and Oppression."

**Motorcycle Killed.**  
In collision with a heavy motor truck at Pico and Los Angeles streets, George W. Zolton, 30 years old, of No. 125 East Seventy-first street, was fatally injured yesterday morning while riding a motorcycle north on Los Angeles street. He died a few minutes after being taken to the Angeles Hospital, his skull having been fractured. The driver of the truck was Andrew Lane of 1021 East Forty-first street. The police believed his statement that the accident occurred through a misunder-

standing as to the right of way on the part of himself and Zolton, and made no arrest.

**Child Labor Day.**  
The Southern California Child Labor Committee has set apart tomorrow and Sunday as child labor day, and will ask ministers to preach upon that subject. Saturday is named, inasmuch as many Hebrews are interested in the movement.

**Evening City Club Symposium.**  
The Evening City Club will be addressed on Monday evening at Christopher's, on the subject of the development of a higher democracy through public school co-operation. The speakers will be Mark Keppel, C. C. Kelso, Dana W. Bartlett and A. E. Wilson.

**To Close Them.**  
In the interest of safety, the forward entrances of all Pacific Electric cars, whether operated singly or in trains, are to be closed permanently February 1. This will compel passengers to board and leave cars by the rear entrances, where they will be constantly under the eye of the conductor. Cars starting before passengers are on or off.

**Presbyterian Women to Meet.**  
A special meeting of Presbyterian women will be held at the Bible Heights Presbyterian Church this afternoon at 2:30, under the auspices of the ladies' aid societies, which have been invited from all the churches of the city. The meeting will be addressed by Rev. William Sylvester Hoff, D. D., representative of the board of ministerial relief and sustentation of the Presbyterian Church, and Rev. William J. Johnson, D. D., field representative of the same board.

**Seeks Missing Husband.**  
Probation Officer Marden's department at Central Police Station was appealed to by the wife of Nelson D. Napier, of No. 3330 Melbourne avenue, who has been missing since last Monday, leaving his wife in a condition in which she is unable to support herself and little child. The missing husband had been charged with a shortage in his accounts by his employer, a florist, concern in this city. He left a note, declaring his innocence and saying he would earn money and send it to her.

**Hold-up Man Foiled.**  
Steady nerves enabled W. H. Smith of No. 743 Maple avenue, to turn the tables on a man who attempted to force money from him at the point of a revolver early yesterday morning, as Smith was entering his home. The would-be foot-pat first asked Smith for a match, and when a box was handed to him, he thrust the revolver in Smith's face with a demand for money. Watching his opportunity, Smith seized the few seconds' respite, and then wrenched the weapon from the robber, who beat a hasty retreat.

**GETS BACK HER CHANGE.**  
Negress Who Had Complained to the Police Holds Up Two Peddlers With a Shotgun.

Mrs. Fannie White, a negress of No. 1204 Victoria street, telephoned the police the other day that she had been "short-changed" by two itinerant vegetable peddlers. She was very wroth about it.

The sequel to that brief report came yesterday when Harry Le Vin, of No. 611 Cornwall street, a peddler, reported that he and his partner had been held up at Victoria and East Fourteenth streets and robbed of 45 cents by a colored woman.

They stated, without reservation, that the woman was Fannie White, and they likewise were very wroth about it. Their report, written out laboriously by Le Vin, stated that the woman came to their wagon and demanded that "they hold her until she paid them the change she had shot out of her pocket."

They parleyed for a time, they say, but finally handed over the change they had in their pockets, amounting to 45 cents. Le Vin said he further told her that if she were very angry he would give her a \$5 gold piece he had in his pocket, but the woman was so enraged that she did not hear the suggestion.

Detectives Glenn and Stevens were detailed to the case and paid a visit to the White domicile, but Mrs. White was not at home, nor was any of her kin. It is believed her mind is unbalanced.

**CENTRAL W.C.T.U.**  
Miss Ella Howard will address Central Union at Temperance Temple this afternoon at 2:30 o'clock, on "Why Do People Crave a Stimulant?"

**BUSINESS BREVITIES.**

BOWEN, JAMES, and JANE, daughter of J. H. Bowen, of Los

## EARNEST BODY OF DELEGATES.

Probation Convention Full of Interest.

Name for the Association Is Officially Adopted.

Will Adjourn Finally with Tonight's Session.

The California Probation Association (the name officially adopted) was greeted with a crowded house at its sessions held yesterday. The probation officers, committees, judges and others connected with the subject of delinquency, take a most unusual interest in the convention, and the discussions are earnest to the point of enthusiasm.

These representatives of reform, as well as the prevention of crime through the proper handling of boys and girls, have come from all parts of the state, and they are sticking close to the business and are called them here. Los Angeles is largely and efficiently represented and her delegates cut a big figure in the deliberations. Chairman Ryland has proven himself of exceptional value, both in the dispatch of the business of the convention and his eloquent and lucid introduction of the various questions coming up for discussion.

This morning's session of the convention will be held, but as guests of the juvenile court committee of the Los Angeles Parent-Teachers' Association, the visitors will be taken in automobiles on a tour of inspection of the social service centers and will probably be given an idea of the city's public institutions in general.

**NEED ANOTHER SCHOOL.**  
In her talk on "The Girl Problem," yesterday, Miss Louise Barber, a Los Angeles probation officer in charge of delinquent girls, declared:

"I know of nothing so much needed in Los Angeles today as an efficient and properly equipped industrial training school for girls."

While being a strong advocate of placing delinquent girls in private families, whenever it is possible to do so, Miss Barber finds two classes that offer insuperable obstacles to treatment. The first is presented by the older girls, between the ages of 18 and 21, who are hard to control and who refuse to do housework.

For these the only refuge seems to be the corrective institution, but there is another class of girls in the city who are the girls of 15 and 16," she said, "pretty good youngsters, but they just hate housework and are not fitted for it and therefore cannot be placed in private homes. What are we to do with them?"

It was in this connection that she suggested the need of an industrial training school. How to make right-looking attractive to the delinquent girl, and how to win her confidence and respect and affection, she declared to be the greatest question facing probation officers.

J. C. Astredo, chief probation officer of San Francisco, made a helpful practical talk concerning probation laws and how to secure the best results for boys and girls who come under the care of probation officers.

**BAD EYE HANDICAP.**  
He told of a delinquent boy who was sent to fourteen different jobs in six months, and everybody called him "bad." He had the boy's eyes examined and found that one of them was nine-tenths blind. After the defect was corrected he was sent to a job, which he still holds after eighteen months and is commended for his efficiency.

Mrs. E. L. Baldwin of San Francisco spoke interestingly on the detention home question. Judge Wilbur and Taft of this city, Judge Oster of San Bernardino and Judge Perry of Bakerfield, were among those who took part in the discussion. H. E. G. McCartney, Deputy District Attorney of this county and J. C. Astredo of San Francisco spoke on other phases of the general question.

**SAN FRANCISCO NEXT YEAR.**  
It was decided to hold the next convention in San Francisco in 1915, and the following officers were elected to make arrangements and have charge of the programme: President, James Lowenthal, San Francisco; vice-presidents, Rev. E. P. Ryland, Los Angeles, and H. A. Sealmon, Fresno; secretary, O. F. Smedley, Oakland; assistant secretary, C. H. Waterman, San Jose; treasurer, Miss Louise Hill, San Diego; and assistant treasurer, C. E. Wilson, Sacramento.

Following this forenoon's outing, the convention will reconvene at 2 o'clock this afternoon. The principal addresses scheduled are as follows: "Experience With Adult Probation," Judge Paul J. McCormick; "Failure to Provide," Judge Charles Monroe; "Contributory Law," Judge F. H. Taft. This evening the closing session will be held, and the question of "Care of Children Under Commitment," will be discussed by Calvin Derrick, executive director of the Fresno State School; Fred C. Nellis, superintendent of the Whittier State School; and Gerald C. Waterhouse, superintendent of the George Junior Republic.

**PARCEL POST THEFT.**  
While a driver named Hickham, in charge of a parcel post delivery wagon, was at the Baker block, yesterday, a sneak thief stole three packages from the vehicle. He made his escape and entered the American rooming-house at No. 241 North Main street. Officers were summoned and the packages were found, but the thief was not apprehended.

## TO ASK STAY IN LYMAN CASE.

Not Yet Certain Whether Accused Promoter of Panama Development Company Will Seek Appeal.  
In the United States District Court this morning a motion will be made in behalf of Dr. John Grant Lyman, the convicted promoter of the Panama Development Company, for a further stay of the execution of the sentence of fifteen months imposed by Judge Wellborn, in order that Lyman and his attorney, Paul W. Schenck, can make up their minds whether to prosecute a writ of error in the case.

Notice of a motion that an appeal would be taken from the judgment of the court has been given, but for some reason no further action has since been taken. The prisoner hardly knows whether to go to prison for fifteen months, or begin an appeal that is not likely to be disposed of during the term for which he has been sentenced.

If an appeal is prosecuted it will be on the ruling of Judge Wellborn making Lyman criminally responsible for the acts of his agents, the only count of the indictment upon which he was found guilty being a letter written by E. A. Lyman, assistant secretary of the Panama Development Company—in short, that in law Lyman can be convicted for the acts of his dummies.

If no appeal is taken Lyman, at the end of the second stay, it is likely, will be taken to the Federal prison at Atlanta, Ga.

**Why Turn Back?**  
Tells of the Notable Work Done in the Islands Since American Occupation—Here to Interest Travelers in Manila Merchants' Association Excursions.

"Why turn back the clock of progress by giving the Philippines independence," said C. M. Jenkins, special representative of the Manila Merchants' Association, yesterday.

Jenkins, a fourteen-year resident of the island colonies, is here working up interest in excursions which the Manila Merchants' Association purpose to offer to the Orient.

"We have one of the most progressive and also one of the healthiest cities in the world," Jenkins continued, "and it is all the result of the American occupation. We have \$2,000,000 invested in docks that are as fine as any in the world, a sewer system as good as any anywhere, a fire department of which we are proud, and every evidence of future growth."

"When I first went to the islands Manila was a cesspool, a death trap. But the good work was already started which was to reclaim the swamps and erect a good American city to front one of the finest bays in the world. Backcountry conditions were in chaos even then; there was little or no government, and the natives were ignorant and squalid and unclothed."

"But patience has changed all that. Now Manila is the capital of a principality of which Americans at home know only too little. Education has made the Filipino proud of the American flag, and we residents look with apprehension on this talk of 'self-government.'"

"Independence, self-government—call it what you will—it is a national calamity. We Americans out there believe we had a more or less sacred trust thrust upon us with these islands, and we look askance on any side-stepping. The English talk of what they have done in India and South Africa. Well, we have done more in the Philippines, and it is up to us to continue the good work."

Jenkins' work, which is in the country will be to interest commercial and civic bodies in the excursions which the Manila Merchants' Association now offers four times a year from Seattle to Japan, China and the Philippines.

It is the "best idea" a little different," said Jenkins. "The Manila Merchants' Association is proud of its city and wants to see more Americans visit it on an oriental tour. Instead of telling you what we have done, we want you to come and see for yourselves. We don't ask you to observe, and the sight thereof would do well to cast his lot with the islands."

**By Default.**  
**INVOLVES WIFE OF PRESIDENT.**  
MRS. WOODROW WILSON FIGURES IN WILL CONTEST.

Triangular Controversy Over Acreage in Riverside County—First Lady of the Land Invests in State Ideo Land Scrip in the Indian Date District.

A triangular contest, involving the right to eighty acres of land in the Indian date district, Coachella Valley, in which Mrs. Woodrow Wilson, wife of the President, appears through an agent, was heard before Register Butts and Receiver Robinson, of the local land office yesterday.

## At a Deadlock.

(Continued from First Page.)

this matter. I believe that the taking  
over of the lot will be the easiest solution  
of the problem."

The board of governors of the Crittenton Home are standing pat on their original purpose of building on the Loma drive site. This statement was given out yesterday by Senator Hurd, Mrs. Stoddard and Mrs. James Henry Ballagh. "It is the unanimous wish of the Board of the Florence Crittenton Home that they retain the location selected and that they be permitted to proceed at once with the erection of the proposed magnificent fireproof building."

The members of the committee which selected the site for the proposed home are Senator Hurd, chairman; John S. Mittonell, Marco H. Hollman and Mrs. Stoddard. Their selection was approved by Johnson.

---

### FAILS IN SUICIDE ATTEMPT.

Goldie Verser of No. 531 East First street, a former cabaret singer, made an ineffectual attempt at suicide yesterday by slashing her left wrist with a penknife. She was taken to the Receiving Hospital, where the injured member was dressed. The woman had had a quarrel with her husband, a waiter.

#### OBLIGING.

The Mexican general in charge of the refugees at Ft. Bliss is making his soldiers do all the work about camp and seems to feel that they are all heroes. This is like the man who borrows a cigar and a match, but who furnishes the mouth.

#### SVALLOWING HIM.

"Shut your eyes and open your mouth," says Woodrow to the Democrats. They do it and say "Yum, yum," asking for more. There is something in the scriptures about a morsel being sweet to the mouth and bitter in the belly; but that was only in the way of a revelation.

#### ONE OUT OF ONE HUNDRED.

The city of Portland, Or., arranged to give work at \$1.50 for an eight-hour day to 500 of the unemployed who had been given free sleeping quarters. Of this 500 only fifty applied for work, only twelve reported at the municipal stone pile, and seven of these quit within the first hour. The 493 out of 500 men who are too lazy to work and have not the brains to live without work will still furnish appreciative and admiring audiences to soap-box orators who will fulminate against the aggressions of predatory wealth.

#### WHAT OF IT?

Somebody is always discovering something and wanting the rest of us to be shocked about it. It is usually a college professor who needs advertising that offers to surprise us with the startling results of his investigation. Over in Paris one of these wise men has learned that nearly all foodstuffs contain boracic acid. We would not be surprised at any time if some head of a university should come to California and astound the world with the sensational announcement that good oranges contain juice, and that the Pacific Ocean is fluid.

#### A N EASY JOB.

It is pretty soft for Uncle Sam's navy these days with nothing to do but sail up and down the Atlantic warning icebergs to keep off the grass. Says Germany to England, "I hate being run down by icebergs, don't you?" Replies England to Germany, "They are a blasted, blooming nuisance, don't you know." Says France and Italy in chorus, "Let's play at patrolling the ocean and let Uncle Sam be the police while we sail our ships up and down and see if he can keep things from happening to them." "Let's," they all agree, and Uncle Sam is it.

#### THE HEARD.

Congress ought to take steps to conserve the Bull Moose. They die off at a sad rate politically and they do not breed. It is a question of only a little time until they will be entirely extinct if something is not done to preserve the species. Not enough of them remain in California to make tracks in the exceedingly soft mud around Oyster Bay. In a couple of years our senators will be digging in La Brea beach for the remains of one of these prehistoric creatures, hoping to string its skeleton with wire and loan it from time to time to the different museums of the country for exhibition purposes. Kipling makes one schoolboy say to another that he would not look pretty stuffed.

#### NO ARGUMENT.

A college professor in Chicago dressed as a laborer and went out to look for work. He secured four jobs in three hours and decided that there is no excuse for the unemployed. There is, though, and that is precisely what this gifted man's experience demonstrates. There is the excuse of uselessness, of unpreparedness, of a failure to recognize opportunity, of lack of the sense of direction, of the positive, forceful personality which goes straight for what it wants and cannot be denied. This man, who could do big things, could naturally survey the field with clear eyes and, like an eagle looking down from the skies, know perfectly well upon what peak or crag to alight. It is the slow, creeping things that cannot find the sunny peaks. Socialism never answers this. Only the efficiency of the individual is adequate.

#### HER TROUBLES.

England has a Queen. This troubles the Queen more than it does England. The lady has a son and he is also one of her troubles. We rather have hopes of him. He seems to be almost human. He joined a club at college where they sing and drink beer. His mamma canceled his membership. This because she is a Queen and could do what she wanted. Now the Prince has reached the age of falling in love and, although his mother is a Queen, she cannot stop it. That is not because there are things which queens cannot do. It is only because the Prince has discovered that the world is full of queens and that he cannot spend his life obeying only the Queen of England. He took a lady's photograph, having fallen in love with it at first sight, and when his mamma took it away from him he met a country girl and wrote her letters. They sent the chaplain to him to remonstrate. That was not wise. Court chaplains can be used for performing marriages. The Queen will wake up some day and find that she is a mother-in-law. We repeat that we like that Prince.

#### COME BACK!

Toopious and Holy Hi and Guy Eddie and Chattering Chet are in a state of mind at the registration returns. The tremendous anxiety, the feverish activity, the desperate efforts of these freaks, experimenters and political pretenders to prevent the stampede of honest Progressives back into the Republican party is as fruitless as it would be to prevent a stampede of wild horses back into the pleasant meadows from which they were illicitly driven into the desert by predatory Progressive bronco busters, who designed to make beasts of burden of them to carry their carcasses out of the wilderness into a haven of official job-holding.

The "Progressive" leaders and spokesmen, journalistic and others, see judgment day staring them in the face as return after return comes from Northern and Southern and Eastern California, showing that Republicans who were deluded last fall into throwing away their votes on Roosevelt and Johnson have come to their senses and, without any brass bands or hubaloo meetings, are quietly registering once more as Republicans.

Why should they not do so? What is there in the history of the Republican party, remote or recent, to justify anyone who believed in its principles in 1910, when Johnson ran for Governor as a Republican, from leaving it in 1914, when Johnson seeks to retain the Governorship by establishing to death the party that was deceived into lifting him from the obscurity of a discharged lobby agent of a railroad company to the high and honorable office he has disgraced with his fads and degraded by using it to promote his political needs and his personal ambitions?

Historians will seek in vain for an adequate cause for the Roosevelt-Johnson treason of 1912. The platform of the National Republican Convention in Chicago had been voted for and accepted by the Roosevelt delegates to that convention. The big Bull Moose was willing and anxious to be nominated upon that platform. His supporters did not bolt the convention until they ascertained that, even if all the delegates whose credentials they denounced were excluded and all the contestants whose election they claimed were admitted, Roosevelt would still not be in reach of a nomination.

When they ascertained this, out they went. It was the wickedest, the meanest, the most treacherous and causeless bolt recorded in American political history. It has happened that a great party has divided upon a question of principle, as in 1860 when the popular sovereignty doctrine rent the Democratic party in twain at the Charleston convention. But it has never before happened that the mischievous activity of a candidate whose candidacy represented no divergent principle or doctrine, represented nothing but his own inordinate and unwarranted ambition, has been able to temporarily steer a great party into the breakers.

But the Republican ship was not wrecked, thank God! Her timbers were so sound and strong that they withstood the shock. The loyal crew have returned to duty and thrown overboard the mutineers who steered them into the breakers. The returning tide is floating the good old Republican ship into deep water once more.

From all parts of the State comes cheering news of Republican gains and Progressive losses:

"Have you heard from the North how it went?"

"How! They bent to down Bilikent!" Have you read the returns from what the Express calls "those isolated and obscure localities," Los Angeles and San Diego? Have you noticed the registration figures, Republicans 13,521, Progressives 6901, Democrats 6024?

Come back, Republicans who were fooled and swindled into voting for those bombastic humbugs, Roosevelt and Johnson! Return to your father's house! There is plenty of roast veal and an honored seat at the family table, with no reproaches awaiting you.

#### THREE KINDS OF BOYCOTTING.

One Harry W. Laidler has published in New York a book entitled "Boycotts and the Labor Struggle, Economic and Legal Aspects." While giving a fairly complete and not entirely inaccurate history of strikes and boycotts in Europe and America for a century past, the scope and purpose of the 488 pages of which the work is composed is to defend and justify illegal boycotts.

The author admits that there are three kinds of boycotts—primary, secondary and compound. A primary boycott is a combination of persons to suspend for themselves dealings with a person obnoxious to them, and involves no attempt to persuade or coerce third persons to suspend dealings also. This form of boycott is legal, but has been found so ineffective that the labor unions have abandoned it.

A secondary boycott is where the workmen combine to induce or persuade third parties to cease business relations with those against whom there is a grievance. This form of boycott is also legal, but has also been found ineffective.

A compound boycott is where the workmen use coercive and intimidating measures instead of persuasive measures in preventing third parties from dealing with the boycotted firms. This form of boycott is illegal and its use has been discouraged since the conviction and jail sentence of Gompers and his associates.

A primary or secondary boycott is not a crime, it is simply a folly. Suppose a boycott visits his grocer and says, "Unless you refuse to sell sugar and bacon to my former employer, Jones, against whom the union has declared a boycott, I and my friends will withdraw our custom from you." "How many of your friends are there who buy their goods here?" the grocer will answer. "There are four of us who are in the habit of trading here," the boycottist will say. "And when I tell Jones the reason of my refusal to sell him groceries," the grocer will remark, "don't you know that Jones will tell his friends and neighbors and they will resent my action by withdrawing their patronage, which is worth more than that of you and your fellow-boycotters? It appears to me that it will be good business for me just to recommend you and the other boycottists to seek the society of your father, the devil, and trade with somebody they can make a monkey of. I am not built that way."

In this city, with stores on every corner and telephone communication with fifty

## Distancing!

stores that deliver goods, primary and secondary boycotting is impossible because fruitless. And if an appeal is made to retailers not to buy of wholesalers, or of wholesalers not to buy of importers or manufacturers, it will be equally futile.

The author of the book suggests that Congress should legalize the compound boycott on the ground that labor, if deprived of it, will resort to weapons more dangerous to social well-being. It might as well be claimed that, unless stealing poultry and the passing of phony checks is legalized, the gentlemen now engaged in those industries will take to porch-climbing and highway robbery.

It has evidently not occurred to Mr. Laidler that the abuse of a right may involve the perpetration of a wrong. The right of workers to strike, either individually or collectively, that is to leave their employment if dissatisfied with their wages, their hours of labor or the conditions of their employment may not be questioned. But the right of a striker to beat to a pulp and send to the hospital a workman who accepts the job the striker has vacated is quite another thing. It is a wrong and a cowardly one when half a dozen strikers assail one man, as is often the case.

The right of a workman to demand of his employer to discharge another workman who is not a member of a union, or because he does not like the nationality, or the religion, or the color of the hair, or the cut of the coat of the other workman, may be conceded. But where the employer refuses the request it is a wrong to dynamite his factory or insult his wife and children.

The right of a man to refuse to himself patronize a grocer who sells sugar, or a butcher who sells meat, because the tradesman sells goods to people of whom the boycotter disapproves, is a perfect right. But it is a wrong to demand of other customers that they refuse to patronize the tradesman and to menace them with violence or insult if they refuse compliance with the demand.

The argument for the suppression by law of the use of the boycott is thus stated by the presiding judge in a New Jersey case:

"Freedom of business action is at the foundation of all industrial and commercial enterprises. . . . If this privilege is denied, free speech becomes free association. . . . If the management of the business is to be taken from the owner and assumed by, it may be irresponsible strangers, then we will have come to a time when capital will seek other than industrial channels, where enterprises and development will be crippled, when interstate railroads, canals and means of transportation will become dependent on the paternalism of the national government, and the factory and workshop subject to the uncertain chances of the co-operative system."

Arturo Giovannitti, the Italian anarchist, rather rejoices than otherwise at the decay of the boycott. He says:

"Now that the bosses have succeeded in dealing an almost mortal blow to the boycott, now that picket duty is practically outlawed, free speech becomes free association. . . . If the management of the business is to be taken from the owner and assumed by, it may be irresponsible strangers, then we will have come to a time when capital will seek other than industrial channels, where enterprises and development will be crippled, when interstate railroads, canals and means of transportation will become dependent on the paternalism of the national government, and the factory and workshop subject to the uncertain chances of the co-operative system."

No policeman's club. No rifle. No prison bars. It cannot be starved into submission. It cannot be executed. It cannot be blacklisted. It is present everywhere, and everywhere invisible, like the alphas that soars high above the clouds in the dead of night, beyond the reach of the cannon and the searchlight, and drops the deadliest bombs into the enemy's own encampment. . . . The dynamiting operations of the Bridge and Structural Ironworkers on the ground that they were "due to the founding of their union by court injunctions." He says that the suppression of the compound boycott "has given an impetus on the economic field to such milder activities" as the negative boycott and co-operative efforts, as

well as the more radical proposals of sabotage and the other tactics advocated by the I.W.W.

Mr. Laidler's book may, on the whole, be classed as a plea for domination by the labor unions as a mischievous and misleading contribution to the industrial literature of the day.

#### UNWISE LEADERSHIP.

President Wilson and his party associates, reluctant to abandon any part of the programme which they chalked up on the blackboard, forced the Senate to remain in session thirteen hours a day to pass the currency bill. In other words, instead of an intelligent debate, a physical test was resorted to for the purpose of passing that measure.

But the currency measure will not stop the closing of mills all over the country, the curtailing of production and wages in other establishments and the increasing army of unemployed workmen (much of which is already in evidence) as "first fruits" of the Democratic tariff changes.

President Wilson realizes that fact and, after cowering with the Democratic leaders in the House, has brought out a new programme of anti-trust legislation. This programme, if enacted into legislation, will increase instead of decrease the growing discontent. Corporations can be regulated, but they cannot be destroyed without harm to the nation. The President might as well try to break up department stores. Large corporations flourish in every country and contribute greatly to the increase in exports. Seeking to destroy or impair them by unnecessary or ill-considered legislation is as unwise as the other Democratic measures which deprive American workmen of employment for the benefit of foreign competitors.

The cost of living is higher, rather than lower, as the result of such legislation. The American people will realize in time the folly of legislating on the basis of theory instead of experience.

#### AN INVERTED SYMBOL.

A strong drink is said to be raging, and we have no doubt that the man responsible for this remark knew what he was about when he committed it to parchment. It also happens, however, that humanity never came nearer reaching a conclusion of immortality nor more clearly demonstrated the possibilities of transmutation than in the distillation of liquor. In the kiss of the wine life whispers to us eternity's secret. This liquid warmth is fire from the heart of the great and the glorification of a being renewed. It is the vine's fresh aspect coming up through the change of the alchemists for the renewal of purer bodies. This ethereal sunshine of vineyards, this ecstasy of orchard, this revived vegetation, is the spirit of the many melted into one; it is the flower of change from clay to winepress. A man may not look upon one clear drop of wine and not hear the drone of bees about the blossom or fail to see the pulse of bird above the bloom of grape cluster. It is to behold the burning eye of life looking within life's blazing heart. Shall you hear the stir of winds within the vine leaves and be less assured of your own certain transmutation?

#### WHITE SLAVERY.

WALT MASON IN THE TIMES.

Oh, let us paw around some more and roast the frightful white slave traffic, and on the lecture platform roar, and write foul novels, tense and graphic. White slavery's the darkest maze that ever a mortal stork we shook at; so let's present a lot of plays unfit for decent folk to look at. The magazine in horror past, the public prints are daily yawning, until I tremble for my aunt whenever she goes toward shopping. The fate she faces makes me cringe—a fate distressing, dire and shady! Some fellow with a cheap syringe may up and dope that fine old lady! The unprotected girls to grab, the slavers lurk in nooks and crannies, and we must keep unceasing tab upon our gay and giddy grannies. Sane people say the white slave tales are made of air that's superheated, suggesting that the villain in horror past, the public prints are daily yawning, until I tremble for my aunt whenever she goes toward shopping. The fate she faces makes me cringe—a fate distressing, dire and shady! Some fellow with a cheap syringe may up and dope that fine old lady! The unprotected girls to grab, the slavers lurk in nooks and crannies, and we must keep unceasing tab upon our gay and giddy grannies. Sane people say the white slave tales are made of air that's superheated, suggesting that the villain in horror past, the public prints are daily yawning, until I tremble for my aunt whenever she goes toward shopping. The fate she faces makes me cringe—a fate distressing, dire and shady! Some fellow with a cheap syringe may up and dope that fine old lady! The unprotected girls to grab, the slavers lurk in nooks and crannies, and we must keep unceasing tab upon our gay and giddy grannies. Sane people say the white slave tales are made of air that's superheated, suggesting that the villain in horror past, the public prints are daily yawning, until I tremble for my aunt whenever she goes toward shopping. The fate she faces makes me cringe—a fate distressing, dire and shady! Some fellow with a cheap syringe may up and dope that fine old lady! **FORGING LINKS  
AROUND DAVIS.****Ugly New Facts Develop in  
Sawtelle Mystery.****Accused Man's Property Was  
Saved in Fire.****Forged Note's Source Found  
by Detectives.**

Lines of circumstantial evidence tightened around Wilson E. Davis, accused of the murder of his partner, W. G. Wheeler, at Sawtelle, on New Year's Day, when the District Attorney's force uncovered important fresh facts on the eve of the preliminary examination to be held today.

Valuable property belonging to Davis and which had been kept in the home he and Wheeler occupied at Sawtelle was found in the room of F. C. Hinkle, an inmate of the Soldiers' Home. This property, packed in a big box, escaped being burned in the fire that burned the body of Wheeler. It was seen in the home a few days before the fire. A day or so afterward Davis sent it to Hinkle's room.

Notwithstanding that this property was saved, it was claimed yesterday, Davis listed it in a report of his losses to the Newark Fire Insurance Company.

Even more telling evidence against Davis was found yesterday when detectives working under the direction of Chief Detective Malcolm McLaren and Deputy District Attorney F. W. Blair unearthed the source of the note found among Davis's papers. It will be shown that this note, purporting to have been signed by Wheeler, was not only a forgery, but that it was back-dated, and that it was made out after Wheeler was burned to death. The blank notes, it is said, were obtained by Davis after Wheeler's death.

er's death. A clerk in a store has identified Davis as the man to whom he sold the blank notes subsequent to the murder.

The note is for \$100 "payable to W. E. Davis," runs for ten months and carries 4 per cent interest. It is dated "Long Beach, October 15." It is signed "W. G. Wheeler."

**IN SAME HAND.**

Milton Carlson, handwriting expert in the service of the District Attorney, yesterday pronounced the Wheeler signature as a forgery, and he will so testify at the preliminary hearing today. Further, Carlson is prepared, after two days investigation, to testify that the handwriting on the face of the note and the signature of Wheeler are by the same hand, and that Wheeler did not fill out the blank spaces on the face of the note.

Since Davis assured the authorities upon his arrest that Wheeler did not owe him "anything to speak of," and since the discovery of an accident insurance policy for \$1500 with Wheeler's estate as beneficiary, the finding of the note for \$100 establishes a clear motive for the crime.

Experts yesterday reported to the authorities that they had found traces of cyanide in the stomach of Wheeler and also in the heart. These organs were removed from the body when it was exhumed at Sawtelle, Wednesday afternoon.

Detectives expect to show that the cyanide found in the vital organs of the murdered man was placed in a cup from which he drank the last night he was alive. Cyanide had been used by Davis and Wheeler in photographic work for bleaching. Wheeler had been in the habit of arising several times during the night and preparing food for himself. The detectives believe that Davis returned home on New Year's eve and then returned to the city early in the morning, leaving Sawtelle while the home he and Wheeler occupied was burning.

**SECRET TRIP TO CITY.**

It was learned late last night that two important witnesses have been procured by the State to show that Davis made a secret trip into Sawtelle from Los Angeles a few hours before the fire and that he left the little town and returned to Los Angeles shortly afterward. At least one person has been found in Sawtelle who heard Davis making a secret trip into the town during the night and preparing food for himself. The two hours later Davis arrived in Sawtelle and expressed great surprise when told that his house had been burned down.

The illness of Justice Michaels has

ing precluded the possibility of his presiding at the preliminary hearing this morning, another justice will hear the evidence. The little justice court at Sawtelle is not large and it will be filled to overflowing today, owing to the sensational features of the case, and the prominence of Davis and Wheeler.

Davis maintained his stoical behavior yesterday. While it is known that he is by no means impetuous, he demanded the services of the public defender yesterday, but later employed counsel.

"I am an old soldier," he said, "and they can't hurt me."

A wide search has been made for the insurance policy on the life of Wheeler, but the authorities believe it was burned in the Wheeler home. A further search will be made of the big box today and it is not unlikely that the policy will be found there, although Davis asserts that it was burned. This policy, however, is not essential to the State's side of the case, and the search is being made at the office of the Fidelity and Casualty Company of New York, in the H. W. Hallman building, yesterday.

It is not often that a man past three score years and ten arrives at the County Jail with a charge against him so serious as murder. It is said at Long Beach and at the Soldiers' Home that Davis's record always has been good. He served four years in the regular army during the Civil War with the Fifth Pennsylvania Cavalry, and was promoted to a lieutenant upon his discharge.

Davis has followed mining for many years. He was once a miner in Utah, his wife having been a teacher in the Utah Indian reservation. Davis's uncle was Indian agent at that time.

Mrs. Hattie A. Davis, wife of the accused, said yesterday she did not believe her husband murdered Wheeler.

"But I'll admit that the fact that he obtained insurance on Wheeler's life looks bad," she said.

**Amigo!****SHAKE HANDS  
IN FRIENDSHIP.****LAWYERS SWAP FELICITATIONS  
FOR NORTH AND SOUTH.**

Strong Ties of Mutual Interest Between Queen Cities of the Coast Indicated at Recently Held Banquet—Speakers Decried Anything but the Best of Good Feeling.

The Los Angeles Realty Board listened to two interesting speakers yesterday at its weekly luncheon meeting at Christopher's—Hon. Samuel M. Shortridge of San Francisco and former Judge Walter Bordwell of this city.

Attorney Shortridge made a special trip to extend hearty greetings to the

really board on behalf of San Francisco. The purpose of his coming was to more firmly establish and cement the friendly relations between the northern and southern districts of the State through the real estate interests which have been prominent in the rebuilding and development of California.

In his reply Judge Bordwell assured the distinguished visitor from the north of the hearty co-operation and support of this part of the State. "I am in favor of friendly business rivalry between the north and the south," Shortridge said, "but am opposed to anything like bitter enmity or ill feeling between the two sections of California. We are one State, and the north and the south are members of that one State."

"There are many strong ties of friendship between San Francisco and Los Angeles. One of the strongest on our part is the memory of your generous assistance in our great hour of need after the earthquake and fire. We owe a debt of gratitude to this city which we will not soon forget."

"I have been coming to Los Angeles a good many years—long before there was any talk about a population of 100,000 here. I wonder and rejoice at your progress. I appreciate what nature has done for this region, but I realize that the glory of California is due primarily to the energy of its people."

"I learn that you have many thousands of people here. I was born in Henry county, Iowa. Though people from all over the world are coming to California, I have the tenderest memories will go back to the native farm, village or city. It is so with me. I have the tenderest memories of my old home in Iowa, although I have long lived in California."

**LOOKING INTO HOTEL RATES.**

Officials of Eastern Tourist Company Here Making Investigations for Exposition Year.

C. H. Wilson, president of the G. E. Fuller, vice-president of the Raymond and Whitcomb Tour Company of Boston, are here casting a horoscopic eye on hotel rates for 1915. They expect to continue the survey of California northward along the coast.

"All our 1915 tours, even the busy ones, include Los Angeles," said Wilson yesterday. "Consequently, we want a little inside information on the hotel situation before we start our itineraries for the exposition year."

"How many do I think will come here next year? Well, it would be a guess, at the best; but I am sure the people who come for the exposition will be a large number. At any rate, we are working on the premise that San Diego, San Francisco and Los Angeles are the places that the 1915 visitors will wish to see, and are arranging our tours so as to center in these three cities."

The 1915 visitors will wish to see, and are arranging our tours so as to center in these three cities. The 1915 visitors will wish to see, and are arranging our tours so as to center in these three cities.

QUESTIONS FOR THE DEMOCRATS

Bridge Puts Them: They Answer?

What Protection Done for State?

Republican Party Is Mo's Dominant.

There are three significant things in the program with which the bridge of San Francisco is to be dedicated. First, it is a Republican nomination for the Senate. Second, it is a Republican nomination for the Governor. Third, it is a Republican nomination for the Mayor.

The bridge is a symbol of the Republican party. It is a symbol of the power of the Republican party. It is a symbol of the power of the Republican party.

The bridge is a symbol of the Republican party. It is a symbol of the power of the Republican party. It is a symbol of the power of the Republican party.

Woman Returns How Century to Find Which Cost a Year. The Unhappy Today—Only the Windfall for Fading

One day they visited the beauty of the high hills and green fields. The child and the old man were a fine pair. The child was a fine girl. The old man was a fine man.

**GOLF ROTTEN SAYS BERRY.**

Hen Scoops at Cow Pasture Shinnery.

Magnate Suggests Few Good Improvements.

Cork Center Ball Might Help Matters Some.

BY HENRY BERRY.  
(Owner Los Angeles Ball Club.)

What is all this golf about? Well I'll tell you it is just like this. When a man gets tired of hearing his friends talking and telling a lot of lies, but does not want to go anywhere alone, he plays golf.

As far as it goes, the game is fair, but it doesn't go far enough, and they need to put a little more language in the schedule. What gets me is this. How can a fellow like Christy Mathewson or Charlie Van Loan go out and play the game and get sore when you happen to ask for the loan of a match while one of them is trying to ram the little pill into the hole on the green?

I have seen these fellows ready to knock my block off for asking a civil question, when I was thirty yards away from the actual scene of the play. And say, if you happen to let your shadow fall over the green, or what ever they call those old patches, while one of the old players is making his approach, well get ready to be blasted, because they'll sure burn you up, with a line of talk that is fine for a gang that is supposed to be playing a game—long on the silent stuff.

**SIGNALS CROSSED.**

Yes there are too many turns in the game and the average man is apt to get his signals crossed with the bases loaded. I have seen Van Loan and Mathewson lose their nerve within three feet of the hole, and why, I can't understand. I know Christy is used to working with 30,000 fans yelling murder and I suppose that Van has done worse things, but get them three feet from that little hole and they go up in the air unless the wind quits blowing and the rest of the bunch holds its breath. Believe me when I get that close I go fine, but somebody always wants to know what I am talking about and it spoils the game for me.

Yes, the game is good enough for exercise, that is if you like to walk, but when it comes to hitting the ball, you don't get a chance at the little devil often enough to see what you could really do in a pinch and the funny thing is that the better player you are, the fewer chances you get to wallop the ball, which is not right to my way of thinking, as it cuts your batting average instead of boosting it.

There is another thing which always tickles me and that is to see the way in which the old boys take to the game. These old heads can learn to be cracks in a season, while the young bloods only bust about a million clubs in that time, and get a bad case of blues from holding their tempers. Take Cap Dillon and Corney Pendleton, they picked it up in a few months and now are traveling in fast company. Of course, they will be sore at being ranked with the old ones, but the truth is the truth, and that's the best bet I know.

But say, the parade on the links is great. These sports get out in every kind of sweater and coat made and the place looks like a Chinese poppy field on a windy day, when everybody gets to going good. They have been kidding me about my hats for years, but if this bunch hasn't got my head stuck to a whisker, I am color blind and I don't wear glasses at that, not yet.

**KILBANE TO CHALLENGE WOLGAST-RIVERS VICTOR.**

[BY DIRECT WIRE TO THE TIMES.]

MILWAUKEE, Jan. 22.—[Exclusive Dispatch.] Ad Wolgast spent today in the lightest sort of work for his fight with Rivers, the Mexican wonder, scheduled for tomorrow night. He did no boxing, but worked a couple of hours in the gymnasium and was out for a five-mile walk this afternoon in the crisp air and found that with this work he had barely brought his weight to 132 pounds, indicating he will be able to fight at a good solid weight. In his other fights he has usually been too light.

The prospects are for a great crowd tomorrow. Special trains will be run from Chicago and Rivers will come up in the morning. The odds here are in favor of Wolgast, about 10 to 3, but Chicago money will be on the Mexican.

Johnny Kilbane, featherweight champion, will be a ringside spectator, and the Cleveland Irishman will issue a challenge to the winner. Kilbane realizes that the rich revenues in boxing are to be found in the light-weight division, and as he is growing heavier, he will not try to make 125 pounds again, even if he could do it, which is doubtful. Kilbane expects to box Wolgast in the near future and his visit here is to get a look at the Dutchman's style. So far as Rivers is concerned, Kilbane knows exactly what the Mexican is capable of, and the latter signed him for a trial. Ad Frank has considerable "stuff" there seems to be but little doubt among his friends as to his ability to stick.

Cap Dillon, the best golfer Of all the baseball players. Christy Mathewson, please write.

**POLY TRIMS TEAM FROM MANUAL ARTS.**

Polytechnic High smeared Manual Arts in approved fashion in a fast game of water polo at the Los Angeles Athletic Club yesterday afternoon. The Mechanics walked all over their opponents and wound up the game with the score standing 15 to 0. At no time did the Vermont lads get dangerous and through the great work of Tuttle and Barton, the winners are now in line for the championship.

Of the fifteen points scored, Tuttle scored ten goals. He was ably supported by Barton. Tuttle was in great shape, lasting through the entire game although he was swimming at a terrific pace throughout the contest.

Los Angeles High defeated Huntington Park in an exhibition game played under the old rules, by a score of 5 to 0. These two teams, Poly and L. A., will play for the Southern California title next Tuesday evening in the Los Angeles Athletic tank. Judging from the scores they have piled up against their competitors, the game will be hotly contested. George Fresh refereed both games.

**ST. JOSEPH'S CLUB BUILDS NEW RING.**

The St. Joseph Young Men's Club, continuing their activity in the amateur boxing game, are having a new ring installed that is second to none in the South. The ring is being raised about four feet off the floor and is being installed as a permanent fixture, not one of those knock-down and set-up affairs.

The club is planning on holding bouts as soon as the ring is completed, which will probably be about February 8. An eight-event program will be staged at that time. Matchmaker Crowley is trying to make arrangements for a star event on that evening. He is looking for J. Dayes and will match him with Mochenhaupt if possible. The latter has not been in the ring since the last Coast championship tourney, but is considered as good for a comeback stunt.

The St. Joseph's men are also planning on entering one man, at least in each of the divisions of the coming Coast tourney to be held at the Los Angeles Athletic Club.

**GOSS IS SIGNED.**

Frank Goss, a bushy of local fame, who has been showing in better class than the majority of his league, will be among the recruits when the Stockton club goes into training. Goss attracted the attention of Hogan and the latter signed him for a trial. Ad Frank has considerable "stuff" there seems to be but little doubt among his friends as to his ability to stick.

**TEETERS WINS THE CROSS-COUNTRY RUN.**

Coach Boyd Comstock held a cross-country run yesterday afternoon at Bonard Field. He is working hard to develop some long-distance men, as the Trojans are a little shy along this line at present.

There were sixteen entrants for the race, which was three and one-half miles.

Teeters gathered first honors and ran a pretty race, winning by about seventy-five yards. His time was 16 minutes and 43 seconds, which was not bad considering the bad weather.

There was a hard fight for second place between Benedick and Wilful, the former finishing slightly ahead of his rival.

The men finished in the following order: Teeters, first; Benedick, second; Wilful, third; Hughes, fourth; McEuen, fifth; Tipton, sixth.

Coach Comstock has a promising bunch out for the distances and should turn out some good men before the season is far advanced.

**HUNS INTERCLASS MEET TOMORROW.**

Best out of staging an interclass meet last week because of the rain, Pomona College seems in a fair way of receiving a second dose of the medicine. The meet was postponed from last week to tomorrow, but unless matters clear up considerably, the Huns will turn to ducks or give up the attempt for another few days.

Coach Stanton will be greatly put back by another drenching as he has many dark horses that need a little light thrown on their ability. With a postponement he will be forced to continue working in the dark and the mid-year exams may cause the loss of additional days of practice.

**U.S.C. STANFORD BREAK LIKELY.**

Wilcox Won't Send Track Squad South.

Cards Might Come Down Here Next Year.

Bovard Says Stanford Is Not Keeping Agreement.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Jan. 22.—[Exclusive Dispatch.] From present indications there is a possibility that Stanford University and the University of Southern California, in Los Angeles, will break off all athletic relations. The trouble is due to the inability of the universities to come to an agreement relative to the exchange of visits of the track teams during the coming season. Warren Bovard, the graduate manager of the southern university, made a special trip to Stanford to try to unravel the tangle, but up to the present has not been successful.

Bovard states that the southern university undergraduates do not take the position taken by Stanford in refusing to send its track team south. He even goes on to say that the faculty is intense there and that there is talk of the college returning to the old style of football if Stanford does not decide to continue relations with the Los Angeles college.

**WILD TALK.**

"Personally," said Bovard, "I do not approve of such talk, and know that it comes from over loyal undergraduates whose heads are easily turned when they are heated by talk such as is found on all university grounds. One thing leads to another, and the undergraduates imagine they have many severe grievances. Of course, the same state of affairs prevails at Stanford."

"There is talk among our students of going back to the old game. These students claim that Stanford has not kept faith with us. When Doc Burbank was graduate manager I had a verbal agreement with him that if we took up Rugby, Stanford would compete with us in all branches of sport. This Burbank carried out to the letter, but now it looks as though that verbal agreement is going to be broken. We hope it will not."

Bovard pointed out that California had made the same verbal agreement with the University of Southern California and had stuck to it. The two universities still meet in all branches of sport.

**DOESN'T HELP CARDS.**

Stanford track officials say they have found by experience in the past that the trips to Los Angeles do not help get the teams into condition for the one big meet with the University of California. The Stanford teams have some big problems to face this season. It being the first one without a trainer, and the athletes do not wish to take any chances.

Next year, however, they figure that the new system will have been worked out all right.

Graduate Manager Wilcox of Stanford said today:

"If the southern university will send its team to Stanford on either March 14, 21 or 24, it is possible that Stanford will pay a return visit to the southern institution in 1915."

Bovard has taken the matter under consideration.

**WILSON WINNER GROVER TOURNEY.**

By winning against George Kirkland last night in the last scheduled game of Grover's handicap pocket billiard tournament, Charles Wilson took first place and prize with a clean score of seven games.

H. J. O'Brien, with six won and one lost, takes second prize; Kirkland and Stephenson, with four wins and three losses each, are tied for third and fourth prizes, and must play off in a single game.

George Banks won three games, lost four, and took fifth prize; O'Neil Stocker won two, lost five, and captured sixth prize; T. K. Greer, with one game won and six lost, took seventh and last prize, and H. T. Ennis, who forfeited to Stocker, lost his rights to dispute Greer's place.

O'Brien beat Greer in the afternoon by sixty balls to forty-seven, making three scratches, twelve safeties, and ten misses. In twenty-six innings, Greer made six scratches, twelve safeties, and eleven misses. O'Brien made runs of 15 and 17. Greer, one of 19.

The evening game between Wilson and Kirkland showed much swinging, the players leading alternately, but Wilson, fortunately for himself, reached the line on his upward wave, at the end of forty-three innings. Score: Wilson, 88; Kirkland, 82. Scratches: Wilson, 9; Kirkland, 8. Run: Wilson, 12, 15, 10, 12; Kirkland, 15, 13, 12. Safeties: Wilson, 34; Kirkland, 37. Misses: Wilson, 13; Kirkland, 9.

Both first and second prizes were taken by men in the second class. Kirkland finished best of the scratch men, tying with the third-class men for third place, while Banks and Stocker, both scratch, finished in fifth and sixth places.

**BOB MILEAN WINS A SKATING TITLE.**

[BY A. P. WIRE TO THE TIMES.]

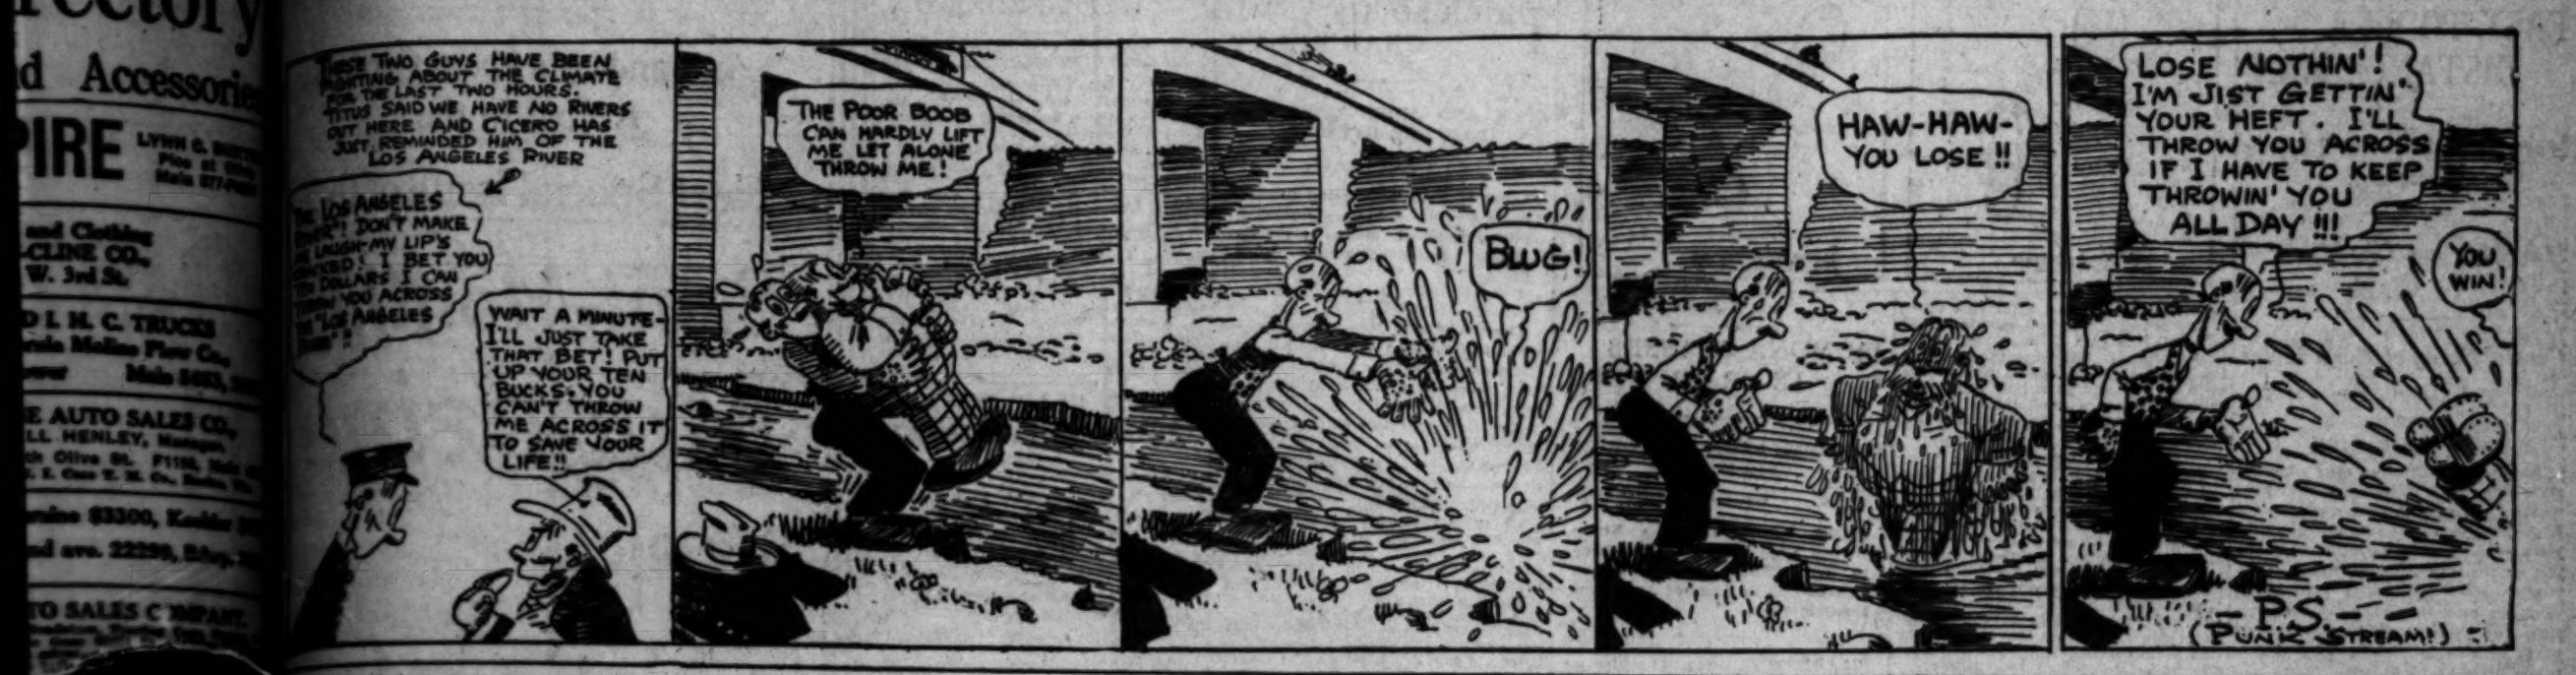

CLEVELAND, Jan. 22.—Robert Milean of Chicago won the quarter-mile championship in the international amateur skating championship events decided here tonight. The time was 46.8. Other winners were: Three-quarter-mile—Lot Roe of Toronto; time, 2m. 7s. One-mile—William Fisher of Milwaukee; time, 1m. 55s. One-half-mile (novice)—C. C. Critchfield of Cleveland; time, 1m. 35s.

Mr. Wad Doesn't Stop Betting With Titus He's Going to Go Busted Sure! By Gale.

Some Popular Boy. PRESS WOULD BECOME PRIDE OF KID WILLIAMS.

Kid Is Swamped with Letters of Burning When Coy Demands Call Up "Times" Office for Introductions—Ladies' Day at Vernon Tuesday.

The benefit of the love-lorn young ladies who wish to meet Kid Williams, the young man burdened with twenty years—\$20,000 and a reputation for a wife, a "ladies' day" will be held at his training camp, which has been decided upon Tuesday as the day for holding the reception.

One of them telephoned and one wrote a letter. The telephone positively jangled like a marriage bell about 9 o'clock last night. The receiver was taken down, a silvery voice inquired, "Can you give me a letter to Mr. Williams—you know Mr. Kid Williams?"

She burst out, the voice at the telephone added, anxiously, "Do you know he is really in earnest about this marriage?"

"What does he say—how big is he?"

"He weighs about 115 pounds," she was told.

"He is just a little fellow," she said and then added, "How old do you suppose he is?"

"He seems awfully young," she said doubtfully, "Do you suppose he is?"

Other girls asked hurried, breathless questions as to where Kid Williams could be met; then clicked up the telephone.

She really decided Kid Williams to hold a reception to ladies next Tuesday, the following letter received by the sporting editor:

"VENICE, Jan. 22, 1914.

"Dear Sir:

"I read in your paper that Kid Williams is anxious to settle down and I have seen Mr. Williams on the street in Venice several times. He is a nice quiet young man and looked lonesome. I never have seen any girl on any occasion.

"I would like to meet him very much as I am greatly interested in him. I think that he possesses \$20,000 is no inducement to me because I am in my own right which I inherited from my mother who is a widow and has a nice big piece of property situated in a desirable part of the city for a nice residence.

"My mother died some time ago and my father is in the East on business. I am making my home in Venice for the present time with some friends.

"I would like to have a formal introduction to Mr. Williams as I admire him very much.

"I would like to have a chance of winning such a model young man as you.

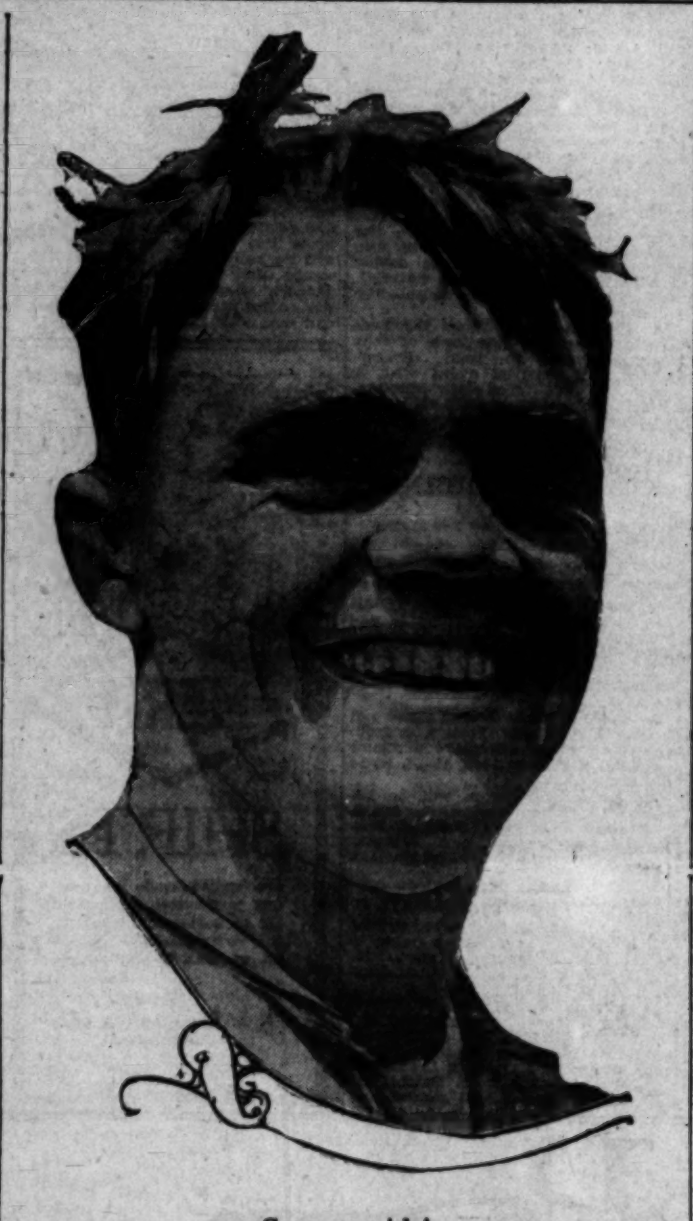

"I would like to get a satisfactory reply and thanking you for your kindness, very truly yours,

"MISS

"My young lady has the good faith to sign her name, which we omit.)

"In reply to the young lady is that she attend the reception at the training camp next Tuesday.

"I would like to suggest that if the helress is not sufficiently impressed with my person when she meets him, he would like to suggest himself as a promise to her."

Come on, girls! Kid Williams's sunny disposition is shown in this smile. He hasn't yet picked out his bride, but the letters are pouring in fast to him. Now is your chance.

The Polo Friend. HUGH DRURY CONTINUES TO SHINE AT CORONADO.

SAN DIEGO, Jan. 22.—[Exclusive Dispatch.] The polo four wearing the blue as the nomination of Mrs. Hugh Drury won the semi-finals of the American tournament at the Coronado Country Club rather handsomely today, defeating the Whites of Miss Louisa Burke by a score of 10 to 5.

Carlton Burke, brother of the nomination patroness, was unable to play because of his injured knee, and his absence perhaps was disastrous. Capt. J. V. Isaacs was substituted, but the team effectiveness was unbalanced by pushing Reggie Weiss and Perry Beadleston back to No. 3 and No. 4 positions, the captain going in at No. 2.

Hugh Drury was the star performer of the game as No. 2 for the Blues, scoring six goals. The crowd fell to cheering him as they would Home Run Baker, which is rather an unusual departure from the muffled clapping of "loved hands."

"I can't understand it," remarked Mr. Drury at the intermission. Reggie Weiss also featured with a goal, and he did not hurt me in the least. I also fought Benny Chavez in Denver and he is a much harder hitter than Williams. No, I am not afraid of his punch, and he had better look out for mine. If Tom McCarey puts up a championship belt and I win it I will meet any man in my class and bar none."

Clabby After Gibbons. Larney Lichtenstein and Jimmy Clabby will be hot after Mike Gibbons in their coming contest.

Yesterday Jimmy said: "I beat Gibbons once, before, and know that I can do so again, but he will not come to the Coast and meet me over the twenty-round distance. If I beat the Sailor I will declare myself the champion middleweight, and make him come out here where we can travel over the distance with a decision given at the end of the contest and no newspaper decisions for mine."

This is the right kind of talk. Gibbons calls himself the champion, but from his past record he will receive little encouragement if he refuses to limit. I boxed him once before and he hit me on the jaw and in the stomach."

Much Ambition. GOOD MATCHES OPEN THE L.A.A.C. WRESTLING SHOW.

GOOD matches featured the first evening of the Southern California Wrestling championships at the Los Angeles Athletic Club last night. Thirteen bouts in all were staged and all but one brought a pair of evenly paired mat men to the ring.

William Huber, Jr., and C. M. Kreider, the former from the L.A.A.C. and the latter hailing from Long Beach, unattached, featured the bill. Huber put Brett on his back in the 145-pound class in less than seven minutes and then turned around and won from Fred Bhand in the 155-pound class. The latter match went the limit, but Huber showed his class.

Kreider won from John Luano at 155 pounds in the toughest bout of the evening. The latter, "Tabasco Kid," rushed out of his corner and made a match of it from the word go. After showing Kreider's face in the mat, digging holes in the canvas with his nose and trying to push his head through the floor, the latter turned out to be a regular oel. He evened matters up in a fifty and took the offensive, winning over the time limit.

He lost to E. R. Barham, a heavyweight, but made the bout go the limit and further demonstrated his ability by going out of his class.

COLD FEET. Kreider was scheduled to go on with a gent named Mawdsley. The bout was called and then a search instituted for Mawdsley. He had weighed in but could not be found when the time for the test arrived. His case will be tended to by the A.A.U.

George P. Shaw successfully defended his title against Frank Seacombe, although the latter made things interesting for some time. Shaw was on the mat for the majority of the time, but on getting the advantage he threw Seacombe with an original hold known as the "San Diego Stomach" hold.

Eddie West and Ed Fiske put up a great scrap in the opening bout at 125 pounds. West threw his man around pretty niftily and finally called him, although Fiske showed his ability to break many holds.

Humerich of the L.A.A.C. had an awful time with a German, finally by Hummerich plunked him with a full Nelson, but he was forced to hold his advantage for several minutes until the referee's signal was down. Fiske's strength and he dropped the extra few inches to the mat.

SPEEDY WORK. To Bert Vandertuin goes the credit of the shortest bout. He flopped Seacombe in the heavyweight class in twenty seconds. Vandertuin hails from the German Turnverein and gives further evidence of the awakening of the Germans for the Olympic games. If the men from the Faderland are picking up in their ability and knowledge as rapidly as the men of that country are doing here it is all up with Uncle Sam. Bert just rushed out, took a hold on his man and it was all over.

Oscar Nelson of the L.A.A.C. crushed the hopes of the L.O.F. by gaining a time decision over William Rodau. The latter forced the well-trained Sweden to do his worst, which at the best was a decision.

William Bovard of the Forresters gave Blanton of the L.A.A.C. a tough battle while it lasted. But the Moroc man won out in 6m. 18s. with

FACULTY MEMBERS WILL HAVE TO PAY. [BY A. P. NIGHT WIRE TO THE TIMES.] MADISON (Wis.) Jan. 22.—Hereafter faculty members and administrative officers of the University of Wisconsin will have to pay admission to witness university football, basketball and basketball games and track events, as the result of a ruling made by the athletic council yesterday. Only team managers, players, newspaper men and wearers of the varsity "W" will be admitted free.

For The Motorist. An Angora Sweater Coat. "Knit to Fit" Modish outdoor toggery for the autoist. Angora Sweater Coats—ruff neck collar, large pockets, artistic belt—just the garment for a comfortable outing. Colors—Green, Rose, Tan, Blue and in combination of Lavender and White. happenings on the Pacific Slope.

DEFENSE SCORES ONCE. Judge Disallows Felony Charge in the Alaska Coal Lands Fraud Case at Seattle.

SEATTLE (Wash.) Jan. 22.—When the Federal Court adjourned tonight twelve jurors acceptable to the defendant had been obtained in the trial of the case of the United States vs. Charles F. Munday and Archie W. Shale, charged with conspiracy to defraud the government of coal lands in Alaska. The prosecution had used two peremptory challenges and had one in reserve. The defense had waived the right of challenging. One of the jurors told the court that he was troubled with heart ailment, and examination will be made to determine whether he will be able to endure the long continuance of the trial.

Most of the day was consumed in arguing whether the trial should be for felony or misdemeanor, the government contending for the former. On looking up the record of the first trial of the case in 1911, it was found that the government had withdrawn its charge of felony and had substituted a charge of misdemeanor. Judge Neterer's ruling of charges three years ago must stand now. This was a victory for the defense, although it appeared during the arguments that the government intended to make felony chiefly to gain three more peremptory challenges, empty challenges, the prosecution not badly off with three.

HEARS HUSBAND'S RECORD. San Francisco Bride of Two Days Informed by the Police That She Married a Criminal.

SAN FRANCISCO, Jan. 22.—(By A. P. Night Wire to the Times.)—John Howard, president of the Western company, who was stricken with apoplexy at his home in Oakland, died last night. He never recovered from the stroke.

His death came on the heels of the prosecution to the dismissal of his case. He was charged with conspiracy to defraud the government in coal lands in Alaska. He never recovered from the stroke.

Sure Indications of Lung Trouble

Among the indications of threatened Lung Trouble are a continued cough, fever and night sweats. A change of climate often helps, but it seems that something more is needed to stop the cough and sweats and arrest the progress of disease. Eckman's Alternative, after many years' experience, has been proved in bringing about relief in many cases of lung trouble. Write for booklet telling of recoveries and additional evidence. SUGAR TRUST SELLS OUT. Chairman of Directorate Says It Has No Controlling Interest in Beet Industry.

NEW YORK, Jan. 22.—The American Sugar Refining Company has no longer controlling interest in beet sugar refineries or a voice in their management, according to the testimony today of Edwin F. Adkins, chairman of the board of directors, on resuming the stand in the hearings of the government's suit to dissolve the company under the Sherman anti-trust law.

Adkins testified that in August, 1911, the company had sold outright its half-interest in the stock of the Western Sugar Refining Company of California, and had also disposed in October of the same year of its holdings in the Carver Sugar Company, both beet-sugar concerns. One of the contents of the government is that the American Sugar Refining Company is a power in the beet sugar industry.

Adkins gave a list of beet-sugar concerns in which the American Sugar Refining Company still held stock. PLAN MARCH IN FEBRUARY.

After Five Weeks of Struggle with Storms the Italian Ship Reaches New York City.

NEW YORK, Jan. 22.—After five weeks' struggle with storms and adverse winds the Italian steamship Oceano reached port today in tow of the German steamer Elizabeth. Her coal supply gave out, some of her boiler tubes were disabled and she was badly battered. The Elizabeth, bound from Galveston and Norfolk to Aarhus, Denmark, picked her up January 14, when she was in dire straits, about 400 miles southwest of Sandy Hook. The Oceano was bound from Lisbon to New York with a cargo of cork, figs and cocoa.

VICTIM OF OCEANO'S TERRORS. PHILADELPHIA, Jan. 22.—(By A. P. Day Wire.) Capt. Harnden, who commanded the British steamship Rappahannock, when that vessel went to the rescue of the steamship Volturo, after in mid-ocean, is in a hospital here suffering from a nervous breakdown.

EIGHTEEN MEN RESCUED. GLOUCESTER (Mass.) Jan. 22.—(By A. P. Day Wire.) The wrecking of the Gloucester fishing schooner Egilantone off the Nova Scotia coast became known today through a dispatch to the owners. The vessel was driven ashore near Liscomb, N. S., and will be a total loss. Eighteen men aboard were rescued.

DON'T ASK FOR A JOB. It's the Easiest Way to Land One From Wilson All Minds Seem to Agree.

WASHINGTON, Jan. 22.—(By A. P. Day Wire.) "No self-avowed candidate for the Federal reserve board will get a position on it," President Wilson emphasized today.

The President does not think one should be a candidate for the Federal reserve board any more than for a place in the Supreme Court.

PORTLAND (Me.) Jan. 22.—(By A. P. Day Wire.) Members of the missing five-masted schooner Prescott Palmer were spotted up by steamer which landed them today at Bermuda, according to a cablegram received by the owners. The schooner was abandoned during the severe storm last week.

Matchless Magazine

The Los Angeles Times

Illustrated Weekly

This week's number ready for readers Saturday and Sunday mornings.

The following partial list of its contents gives some indication of what its character is:

"SOUTH AMERICA'S BABY REPUBLIC" is the subject of Frank G. Carpenter's first article since starting on his tour of our sister continent.

"SHAKING HANDS WITH THE INDIAN" narrates the excellent work that is being done by the Federal government for its wards.

"THE CANYON OF A THOUSAND SPLENDORS" is a delightful description of a notable feature of the Yellowstone Park by Neeta Marquis.

"AID TO LONGEVITY" is an article by that popular physiologist and psychologist, Edward B. Warman, A.M., which will interest all readers.

"LIGHT ON DARK DAYS," by Genevieve Farnell-Bond, gives a graphic description of doings in Los Angeles during the days of the Chinese massacre and other violent occurrences. The article is illustrated with a large halftone reproduction of a rare picture of the city at that time.

In addition to the foregoing there will be found "Lulu's Gifts," an entertaining short story by Hilda Neal; a practical article on feeding chickens, by Maj. C. Devonshire; a full page of cartoons, and all the usual regular features—By the Western Sea, Column Forward, The Eagle, The Lancer, Good Short Stories, City and House Beautiful, Poultry Culture, The Human Body, Poetry and Humor.

"The Little Doctor" (MacLaren's Mustard Cerate) At all Drug Stores.

The 20th Century Mustard Plaster

LAUNDRY AT COST.

From Friday noon to Saturday 2 P.M., at all of the 51 downtown

THREE C LAUNDRY STORES

Healthy Children

Thousands of rollicking, robust children, perfect pictures of health, are living testimonials to the wonderful value of Maier Tonic as a nerve food and strength-builder for prospective and nursing mothers.

It increases the quantity and quality of the mother's milk and adds wonderfully to the general strength and good feeling of the mother.

The best physicians strongly indorse its use. Order it by the case and save money—get it from your druggist.

## Public Service: City Hall, Courts.

## SUMMARY OF THE DAY.

The fire chief and the fire commission are worried lest they may not get three new firehouses started during the present fiscal year and the \$20,000 appropriation therefor may revert to the city's reserve fund.

C. D. Crouch, who has the contract to handle the city's garbage, announced yesterday that all the materials for the new reduction plant have been ordered and will be here within four months. He expects to have the plant ready for operation within eight months.

The Public Works Committee yesterday approved the project for a subway under the Santa Fe tracks to give direct access to Sycamore Grove, but referred it to the Budget Committee for the required funds to be appropriated in the next annual budget.

The Mayor yesterday nominated George L. McKeely for the position of City Prosecutor, vice Nimmo, resigned.

The new law passed at the last session of the Legislature requiring the father to be equally liable with the mother for the support of illegitimate children is being put to the test for the first time in the courts.

Investors in a promotion scheme will attend the preliminary hearing in the juvenile court tomorrow of the promoter who is charged with contributing, and promise to make things warm for the promoter.

The rise and fall of a janitor who became wealthy through a real estate investment was told in the divorce court yesterday. He was practically stripped of his property and lost his wife by a decree of the court.

## At the City Hall.

## THEY'RE ANXIOUS FOR FIRE HOUSES.

## CHIEF AND BOARD WANT TO USE APPROPRIATIONS.

Building Department Is Preparing Plans for Three New Structures, but Work Must Be Started Before Last of June or Money Reverts to Reserve Fund.

Fire Chief Eley and members of the fire commission are getting anxious to see work started on three new firehouses for which appropriations of \$20,000 were made in the last fiscal budget. The days and weeks are creeping along toward the close of another fiscal year, and these officials are beginning to worry over the fact that unless work is started on the proposed new structures the appropriations will revert to the city's reserve fund on the last of June.

What the chances would be for new appropriations is problematic—the fire department doesn't want to take any chances when Chairman Whiffen of the Finance Committee "sees red" every time a new demand is made for municipal coin. Lots have been purchased for each of these three buildings, and their use will give municipalities the protection of thickly-settled districts that are inadequately protected at present.

The locations are at Florence and Moneta avenues, West Thirty-eighth place and Western avenue, and Vermont avenue, between the boulevards and Sunset boulevard. The plans which Building Superintendent Backus is preparing are for one-story brick buildings of the bungalow type, similar to that now being completed at Slauson and Bonaville avenues. This latter house is the first of the bungalow type to be erected in Los Angeles. It cost \$10,000 and will be ready for completion by the first of February. The equipment there will be a combination engine and hose wagon. There is also in progress an addition to the fire house at Vermont and Normandie avenues, at cost \$1500. The three other buildings proposed are at cost \$10,000 each.

During the last year there have been sixteen motor-driven pieces of fire apparatus added to the fire department, at a cost of \$105,000.

## HEGLEY IS MEEK.

## COMPROMISES WITH CITY.

The decisive action of the City Council in adopting an ordinance of intention to vacate a portion of Effe street, thereby cutting off public access to the lands of George Hegley, that have just been platted, has brought to a speedy end the controversy that has been on for several weeks between the city and this land owner. Hegley has surrendered, and yesterday his attorney, Charles H. Trihl, Jr., appeared before the Public Works Committee and stipulated that if the city would remove present obstructions in the street and resound its action on Effe street and give Hegley an eleven and one-half foot strip thereof, he would, in recompense, give the city a permanent easement of five feet on the scenic drive for Elysian Park that runs over his own land and which he recently closed.

## FRANK'S CHARGES.

## REFUTED BY OFFICIALS.

"The treatment accorded me was due solely and purely to the fact that I am of the Jewish faith."

This is the declaration made by F. Frank in charges filed with the City Council yesterday against Commissioner Bellows of the Civil Service Commission and City Clerk Wilde. Frank's attorney is Adolphe Danziger, who made complaint to the Mayor a few days ago in which he alleged that the civil service commission is discriminating against Jews and that Commissioner Bellows had been offensive in the use of opprobrious words concerning members of this nationality.

Frank, in his charges, alleges that he was employed by City Clerk Wilde on assessment rolls, but was laid off and emergency help was put on, although he was on the certified list of the civil service commission, that he tried to get a hearing before the commission, but Bellows objected.

Wilde declares that Frank was let out of employment in his office because he was annoying in his attention to young women employed in the city hall, and that no discrimination was made against him because of his religion.

## GARBAGE PLANT.

## CROUCH TELLS OF PLANS.

C. D. Crouch, who has a contract with the city for the handling of the city's garbage, announced yesterday that the plant is completed, has returned

from his trip to eastern cities, and visited the Board of Public Works yesterday to discuss plans for necessary work at the site of the plant, which must be carried out by the city itself.

Crouch stated that the entire plant has been ordered and that the first shipments are to be started by February 15, while all are to be delivered in Los Angeles within four months. From New York, Milwaukee and Cleveland will come various portions of the equipment. Crouch expects to have the plant in readiness for operation within eight months.

## Pole-Moving Begins.

The Pacific Electric Company notified the Board of Public Works yesterday that it has begun the removal of the center poles on Sixteenth street, between Normandie and Arlington avenues. The street is to be improved and this change was decided before the paving proceeds.

## Hearing Next Week.

The Harbor Committee of the City Council has notified contracting firms that have preference against the Harbor Commission over awards of contracts for harbor materials to plan their charges in writing and file them with the committee at once. The hearing, which was to have occurred yesterday, is postponed for one week, because the committee did not consider that proper and definite charges had been filed. The Pacific Electric Company, the United States Metal Products Company and the Sweetser & Baldwin Company are the concerns that make complaint of unfair treatment.

## FOR PROSECUTOR.

## MCKEEBY IS NAMED.

The Mayor yesterday sent the name of George L. McKeely to the City Council as his appointee for the position of City Prosecutor, in which a vacancy will occur on February 1 through the resignation of Harry M. Nimmo. The Council took the usual action in postponing action on confirmation for one week. Nimmo was appointed to fill the vacancy created when Guy Eddie retired from the office of City Prosecutor, after the scandal in which he was the central figure. Nimmo wishes to devote his time to his private practice of law.

## Contracts for Lighting.

The Board of Public Works yesterday entered into contract with the Los Angeles Gas and Electric Corporation for the lighting of streets for the month of February. City Electrician Mathan yesterday informed the board that the five-year contract entered into between the former city of Hollywood and the Pacific Light and Power Company for street lighting will expire on February 17, and recommended that under emergency provisions a contract be entered into from month to month with this company for Hollywood street lighting.

## Franchise Is Necessary.

The City Attorney informed the Board of Public Works yesterday that in the cases of the Greater Los Angeles Water Company and the Los Angeles Water Company, it is unnecessary for them to secure franchises for their lines of water pipes in the city, as the constitution itself contains a provision which operated as a blanket franchise to each company. If, however, the companies should desire to extend the system by laying additional pipes in the streets, not in the nature of house connections, but extensions into new territory not supplied by them, they will be necessary to obtain franchises from the city.

## For Library Site.

The City Attorney reported to the Council yesterday that the interlocutory judgment has been entered in the case of the branch public library at Madison street and Santa Monica boulevard. The City Engineer has been ordered to prepare plans of the property within the assessment district.

## Fifty-one Volumes.

The contract to be entered into between the city and the Western Lithographic Company for manufacturing fifty-one volumes of assessment rolls was submitted to the Council yesterday. The cost of these rolls will be \$100,000. The city has had forty-eight volumes of assessment rolls and the growth of the city has made it necessary to have this year. Preparations are now going on in the City Assessor's office for beginning the field work on March 1.

## Gilder-Rail Ordinance.

After much delay the proposed girder-rail ordinance, to take place of one in which the provisions are of so doubtful a meaning that prosecution thereon might be used, is to go before the City Council for its final action. The ordinance is now in the hands of Chairman Bryant of the Public Works Committee. Under its terms several lines of the Los Angeles Railway Corporation will be exempted from the ordinance, and the girder rail while the present T rails are in serviceable condition.

## Must Wait for Funds.

The project of constructing a subway underneath the Santa Fe tracks at Avenue 46, in order to safeguard the city from the possibility of Sycamore Grove, was approved by the Public Works Committee of the Council yesterday, but it was recommended that it be referred to the Budget Committee for consideration in making up the next annual budget. There are no funds available at this time for its construction. The total cost of the subway and the necessary land for an approach is estimated at \$4300.

## Third Park Assessment.

The bureau of street assessments is now engaged preparing the assessment roll for the third assessment on the Exposition Park district. The second assessment is now practically completed, and the assessment of delinquent lands are being written. The third assessment will be for \$200,000.

## Proposes Even Split.

The City Council gave favorable consideration yesterday to a proposition from a firm of accountants to enter into a contract with the city to collect taxes on corporations and to take its compensation for this work in half of the amounts recovered from the delinquent companies, where excess freight rates have been charged. The City Attorney was instructed to prepare the necessary contract.

## Would Repeal Amendment.

Councilman Bryant is father of a movement to secure the repeal of amendment No. 1, which allows the State to collect taxes on corporations and prevents such collections by the city. Bryant declared that the movement should be started to secure repeal and that the proper legislation should be introduced.

to start was in the City Council. He proposed that the City Attorney prepare a resolution on this line and submit it to the Council. The ball may be set rolling in time for its consideration at the next session of the State Legislature.

## Regional Bank Resolution.

A resolution was adopted by the City Council yesterday urging the location of a regional bank in San Francisco, and that, if possible, a branch of this bank be maintained in Los Angeles.

## That Gamewell Affair.

The City Council referred yesterday to the Public Safety Committee the subject of a settlement between the city and the Gamewell company for materials furnished by the city for several years, but which have not been paid for. Hope was expressed that a settlement could be made out of court.

## At the Courthouse.

## NEW LAW'S PUT TO FIRST TEST.

BOTH PARENTS LIABLE TO CARE FOR UNWELCOMED ONES.

Suit Brought Against Traveling Salesman by Mother of Twins. Would-Be Builder of Tower of Babel Faces Angry Investors and Court Proceedings.

The first suit to be brought under section 194A of the Civil Code, which was passed last year, making the father of an illegitimate child equally liable with the mother for the child for its support and education, was filed yesterday by Attorney Henry M. Hurd in behalf of Miss Margaret Mangliers, who alleges that I. W. Garner, a traveling salesman for the Stetson-Barrett Company, is the father of her twin boys, born at the County Hospital last April.

"The father as well as the mother of an illegitimate child must give the child support and education suitable to the circumstances of the case," said the court in its decision.

Miss Mangliers is a striking blonde, while Garner is a dark, stout, middle-aged man. It is desired to keep the children with her that she may be able to maintain them in a suitable manner and in such action the court shall have cause to order and enforce performance thereof the same as under section 194A of the Civil Code.

The twin boys were born to Miss Mangliers have been taken care of at the Florence Crittenton Home since their birth and are sturdy young fellows. The court ordered the children with her that she may be able to maintain them in a suitable manner and in such action the court shall have cause to order and enforce performance thereof the same as under section 194A of the Civil Code.

Miss Mangliers is a striking blonde, while Garner is a dark, stout, middle-aged man. It is desired to keep the children with her that she may be able to maintain them in a suitable manner and in such action the court shall have cause to order and enforce performance thereof the same as under section 194A of the Civil Code.
